

THE CLEARFIELD PROGRESS, CLEARFIELD, PA. FRIDAY EVENING OCTOBER 10, 1919

LODGES THINK WELL
OF NEW SECURITYMany Orders Investing Funds
in Quick Redeemable Treas-
ury Saving Certificates.

Among the fraternal organizations in the Third Federal Reserve District which have been investing their lodge funds in the new U. S. Treasury Saving Certificates are the Knights of Malta, Knights of Pythias, Improved Order of Red Men, Patriotic Order Sons of America, Jr. Order United American Mechanics, Foresters of America, and Order of Independent Americans. There are about 3500 lodges in the 60 Pennsylvania, New Jersey and Delaware counties of the Third District and the War Savings Division has been interesting them in the advantages, from the lodge standpoint, of placing their funds in this new government security.

Many letters have been received from officers of lodges endorsing the certificates as the ideal investment for lodges. A trustee of one of the most prominent Knights of Pythias lodges in Pennsylvania said he considers the issuance of the certificates one of the biggest things the War Savings Division has achieved.

"These certificates exactly fit the needs of lodges," said this trustee. "Their absolute safety coupled with high interest rate and speedy redemption privilege make them the most attractive investment I know of for the funds of any organization which requires to have a string to its money so that it may be quickly recalled in case of emergency."

Treasury Savings Certificates are issued in the denominations of \$100 and \$1000. Any sum up to \$1000 can be invested by a lodge in one year. The certificates are being sold in October at the rate of \$84.20 per \$100. If held until January 1, 1924, they will be redeemed at full face value, \$100 or multiples thereof. Should a lodge need its money back at any time, its certificates will be redeemed upon 10 days' notice at full cost price plus 3 per cent interest. The value and interest are guaranteed by the United States Government. They are not subject to market fluctuations.

Certificates are obtainable at post offices and at all incorporated banks and trust companies. The War Savings Division, 1481 Walnut street, Philadelphia, will supply further information upon request.

NEW SAVING PLAN
AIDS WAGE EARNERS

More Than 1400 Government Savings Associations Now Active in the Third Federal District.

More than 1400 Government Savings Associations are now operating in the Pennsylvania, New Jersey and Delaware counties of the Third Federal Reserve District. These associations are located in business and industrial concerns and have a total membership of over 200,000.

The members are regularly saving and investing through the purchase of Government Thrift and Savings Stamps. The largest of these associations has several thousand members and its total investment at a single pay runs from \$3000 to \$10,000.

The Government Savings Association plan is a very simple one. It is designed to make saving an easy and convenient process and for that reason is meeting with great favor among workers. There are no dues, no fines, no meetings, and no record is kept of individual accounts. The ease of saving by the method now introduced goes far to institute thrift as a permanent habit and the returns in various plants show that many workers who previously were very improvident are methodically and regularly putting by considerable sums.

In one small concern eleven men were interested in the plan and it was figured that in six months they were likely to save about \$175. They actually saved more than \$2000 in that time, as much to their own as to others' surprise, and two of them bought homes, using their investment in Government Savings Stamps to make the initial payments.

The War Savings Division, with headquarters at 1481 Walnut street, Philadelphia, is introducing the association plan into practically all leading business and it is meeting with the commendation of both the employers and the employees. Literature relating to the plan and suggestions to promote its introduction in any line of business are obtainable upon request.

NOTICE

Clothing is needed for Clearfield's tuberculosis patients.

All charitably inclined persons will please send this requirement to Mrs. Richard Gilbert, Chairman of the Tuberculosis Committee of the Woman's Club.

OS-37-cb

Wesley Tippet to Gust Wielburg, two lots in Woodward township; consideration, \$800.

NINTIETH DIVISION OPENS SOUTHERN HEADQUARTERS

The following has been sent to us by Carl Roos, of Munson, a member of the valorous 90th division, who believes many other members will be interested in the bulletin.

The 90th Division association was formed by the officers and men of the 90th Division shortly before their return from overseas. The purpose of the association is to perpetuate the name of the 90th Division, its accomplishments and the memory of the men who lost their lives while serving with the division; to assist, every way possible, the families of the men who did not return and to assist all men having trouble with their war risk insurance, securing their bonuses, vocational training, etc.

Headquarters have been opened in the Southwestern Life Building, Dallas, Texas. The secretary of the association, Arthur J. Reinhart, will be in charge of the offices. It is planned to keep on file at the headquarters a

complete record of all men who have served with the division, either in the states or overseas.

HISTORY. A history of the 90th Division, from the date of its organization at Camp Travis, Texas, to the date of its demobilization, with special emphasis on its operations overseas, has been prepared under direction of the division authorities and turned over to the association for publication and distribution. The history is now in the hands of the publishers and should be ready for delivery about November first. It consists of about three hundred pages including about eighty pictures and engravings, maps, plans, etc. The history is in narrative form and has been prepared from historical data contained in the war diary, official records and accounts furnished by individual members of the division, and will relate all the salient facts in the life of the 90th division.

The majority of the men who were

with the division at the time it left Germany have subscribed and paid for a copy of the history: approximately sixteen thousand copies have been sold. There will be twenty thousand copies in the first edition. Subscriptions are coming in very rapidly and if any member desires another copy or if you have friends desiring copies, advise them to mail their name and address, together with check or money order for \$1.50—the price of the history—to the secretary at the foregoing address. It is our desire to circulate as many of the histories as possible in order that the public may better understand the accomplishments of our division and of the work and achievements of our officers and men. See that your local newspaper gets this information to that anyone interested may know how to obtain a copy.

REUNION. The 90th Division reunion will be held in Dallas on October 11, at the State Fair grounds.

A meeting will be held in the coliseum at ten o'clock a. m., and probably General Allen, O'Neil, and McAlexander will be there to give us a short talk. It will be a grand get-together meeting. The afternoon will be free to meet your old bunkies, see the football game, races, etc., and to take in the fair in general. There will be plenty to do, so don't miss the reunion. **UNIFORMS WILL NOT BE WORN.** Register at the coliseum the first thing so that your friends will know you are there and also to get your "TO" badge. Remember that the reunion is to be an annual affair and that we want to make this first one a grand success—so bring your wife, best girl father and mother, all the kids and the dog!

POST CARDS. Anyone desiring sets of actual photographs—post card size—of battle scenes including pictures of plenty of good dutchmen, can secure the same by writing to the as-

sociation. They are in three sets—one containing 25 actual scenes of the St. Mihiel sector; 25 of the Meuse Argonne sector and 25 taken on different parts of the Western front. Most of them were taken by men serving with the division. The price is \$1.50 per set, postage prepaid.

ASSISTANCE. We are all ready to assist any member of the 90th Division who is having trouble with allotments, bonus, pay or any other question between himself and the government. If you have any troubles tell them to us.

The Japanese are now using a stupor as a manure and it is said to give excellent results on rice. An analysis shows the fish to contain nearly five per cent of nitrogen and a small quantity of phosphoric acid.

Eliza McCloskey and Wm. McCloskey to Carl Edward McCloskey, lot in DuBois; consideration, \$1.00.

ANENT FARMERS

The farmers of Pennsylvania are working too many acres and not using their heads enough, according to some statements in the bulletin of the state department of agriculture. "The most of the farmers of Pennsylvania, and the same is likely true of other states," says the bulletin, "are working too many acres and consequently are not doing the work properly and thoroughly." The point is made that too many are content to get one hundred bushels of corn from four acres than from 2 by a change of methods. The farmer, says the bulletin also, must keep in mind the quality of his crops and "advertise in order that the purchasing public may know where to get the best." The bulletin also asserts that the farmers must use their brains as well as their muscles.

see 11 in The Progress

WOULD YOU LET A CHILD STARVE?

If you could see a child fall at your feet, too weak from hunger to stand erect, its great burning eyes brilliant with the fever of hunger and its little emaciated arms outstretched to you in pleading—WHAT WOULD YOU DO?

YOU WOULD FEED IT
THEN DO IT NOW

You do not see that little child, yet you can hear its plea. Its plaintive cry comes across the seas in humble supplication to you for food, lest it die of starvation, for shelter, lest it perish from the cold, for medicine, lest Pestilence claim it.

There is no argument as to the NEED. Herbert Hoover attests it—Red Cross and United States government agents confirm it—eye witnesses sent to investigate by the Jewish Relief Committees have returned heart broken and brain sick with the horrors that confronted them.

There is no argument as to the wise administration of the relief funds—every dollar obtained goes to the one end.

There remains but ONE question.

Will YOU turn away from that dying child, that starving mother, that famishing old man, and deafen your ears to his prayer,

Not in America, thank God.

SAFETY FROM UNDESIRABLES

Immigration has overtaken emigration at the port of New York. The human tide flowing westward from Europe is limited only by the capacity of available passenger accommodations. One vessel this week landed 800 Italian immigrants. Government officials expect an enormous influx of foreigners, but some other authorities insist that the outflow, especially of Italians, will be very large for a long time. This latter opinion is predicted on evidence that the thousands who have gone home during the war period and were kept there by lack of transportation are more than ever eager to take ship now. And this in spite of the fact that the influx noted is reported due to the difficult conditions of existence in Italy. Croatians, Poles and Czechoslovaks also are reported to be returning to their native lands in increasing numbers, they believing they will find opportunities greater than in America now that their countries are free.

The immigration noted should be a matter of grave concern to our government and people. Every precaution should be taken to exclude from this land undesirable foreigners and those who come here with no purpose of becoming citizens. For the present, passport regulations, are fairly rigid and make possible the exclusion of a great many who should be barred, but with the ratification of the Peace Treaty the safeguards will be much reduced. Action by Congress to extend the protection which we now have is called for. And steps should be taken to get rid of the aliens already here who have demonstrated their unfitness to remain. We have not seen the full extent of the peril which foreigners devoid of sympathy with American institutions are to us. We have, however, seen enough to put us on our guard. We have been too trusting in the past. There can be no excuse for admitting potential trouble-makers in the future. It will be more difficult to adopt protective measures when the tide of immigration is at flood. Now, when the incoming stream is comparatively small, we should act for our own safety.—Gazette Times.

WILL THE FLU RETURN

Will there be another visitation of the influenza epidemic, is a question which seems to be undecided in the minds of men of medicine and science. Dr. Adolph Koenig, former Allegheny county medical inspector, and other Pittsburgh physicians say that there is little likelihood of a repetition of last year's epidemic.

In stating his opinions as to the return of the influenza epidemic, Colonel George A. Soper, of the Sanitary Corps, U. S. A., writes in "Science."

Nobody can positively answer this question. Influenza commonly sweeps in more than one wave over a country. America experienced an unmistakable but mild wave before the great one of September and October of last year, and since then there have been local disturbances corresponding to fresh outbreaks in many places. In England a new and alarming prevalence has been reported. It would not be surprising if there should be another pandemic in the United States.

The colonel's idea of the most essential things to remember are embodied in the following 12 condensed rules which were prepared in September, recommended by the surgeon general of the army and published by order of the secretary of war to be given all possible publicity:

1. Avoid needless crowding—influenza is a crowd disease.
2. Smother your coughs and sneezes—others do not want the germs which you would throw away.
3. Your nose, not your mouth, was made to breathe through—get the habit.
4. Remember the three C's—clean mouth, clean skin and clean clothes.
5. Try to keep cool when you walk and warm when you ride and sleep.
6. Open the windows—always at home at night! at the office when practicable.

Your Pleasures

What are you getting out of life?

Are your pleasures secured by spending your last dollar?

How quickly we forget the fun and how long we remember the debt.

Why not start a savings account today at The Clearfield Trust Co.

The Clearfield Trust Co.

7. Choose and chew your food well
8. Your fate may be in your own hands—wash your hands before eating.
9. Don't let the waste products of digestion accumulate—drink a glass or two of water on getting up.
10. Don't use a napkin, towel, spoon, fork, glass or cup which has been used by another person and not washed
11. Avoid tight clothes, tight shoes, tight gloves—seek to make nature your ally, not your prisoner
12. When the air is pure breathe all of it you can—breathe deeply.

Boys' dress shoes in button and lace, box toe. Tan or black. An exceptionally fine shoe for **\$2.98 to \$3.48**

NEWS OF OUR NEIGHBORS CURWENSVILLE

Scott Ammerman is off duty at the Crescent Refractories brick yard office, and is enjoying his vacation day visiting a friend at Akron, Ohio.

Those immense elk horns on display in Vaughn's store window attract the attention of all pedestrians who travel that way.

There is not a flag floating from the pole of any of the three school buildings. Surely it is not lack of patriotism, but merely oversight.

The writer of the Curwensville letter received a letter yesterday from George (Shoety) Blair, who now resides at Warren, Ohio, and requests that the Progress correct a false statement, presumably to come from him which was printed in an edition of the Herald a few weeks ago. In commenting on the story he says in part "that he is not sorry he sold his South Side home and moved from Curwensville." It is just the other way around. He is pleased with his new home, as is his wife and children, and that he is making as much money there in a week as he made in Curwensville in a month. He has no intention whatever of coming back.

M. H. B. Thompson is remodeling the second floor of his building, the first floor of which is now occupied by the Express office and plumbing establishment. The improvement is being made to convert the upper rooms into a flat for house keeping, and when completed, will have a kitchen, dining room and several bedrooms, making the place a tidy corner in which to live.

The Sphinx Club are making great preparations for a masquerade dance to be held in the Moose Hall, Curwensville, on Halloween night, October 31st. This will be a very fine affair. The Original 7 piece Sphinx Orchestra will furnish music for the occasion, and there will also be prizes given for the best costume dancers. While this is a masquerade dance, the Club will be glad to welcome those not in costume, also.

Answering the call Tuesday night from Grampian, to assist in putting out the fire, the motor truck made the run in 20 minutes, and in 10 minutes after arrival, had a stream of water and mud on the flames, and in less than 30 minutes, had the fire under control. Some quick work that.

Mr. John Rapp left yesterday for Somerset county, where he expects to find suitable employment.

Bethesda lodge 821, I. O. O. F., installed the following new set of officers last night. Noble Grand, Chas. Hoover; Vice Grand, Chas. Young; Secretary, H. S. Brown; Treasurer, J. A. Dale.

Curwensville's allotment for the Jewish Relief Fund is \$3,000, and committeemen are of the opinion that when the campaign ends the sum will read more than that.

Born, to Mr. and Mrs. James Humphrey, at the home of Ashley McDowell, on Wednesday night, a bouncing boy baby. As this is the first son to arrive in the family, father and mother are most highly pleased.

A cake walk is advertised to take place on Saturday evening in the Catholic Church. Lots of cakes and good music will be the leading features of the occasion.

Mr. Frank Bilger, manager of the A. and P. store, who was so badly burned last Sunday morning by the explosion of a can of kerosene, is at the home of Percy Shafer, and is reported as getting along finely.

Mr. Bender Brenetti, who has been in the army in France for the past sixteen months, returned last evening before returning from France he visited a sister and other relatives in Italy.

Carrie E. and F. B. Howell to Ina Lord, house and lot in Curwensville, consideration, \$1,400.

HAVE YOU PROPERTY FOR SALE?

List it with me at once. I advertise free and do not mention names unless desired by owner of property. C. G. BLOOM, Real Estate and Insurance, 215 West Fifth Avenue. 06-11-19

FEMININE HOSIERY

To achieve the right effect in women's apparel, one must have the right hosiery with the right shoes. In other words it is the minor details of a costume, that stamps it as distinctive.

We have just received a shipment of hosiery including every fashionable shade and style, suited to every type of fashionable shoe. These stockings, made of pure silk thread would sell at \$2.50 and over if stock had been purchased at present selling prices, but we were fortunate in securing this stock at former prices, and therefore offer them to our patrons at \$2.00 and \$2.25. Come in white, black, cordovan, grey and covert.

Make your selections early, while the assortment is large.

HAVE COLOR IN CHEEKS

Be Better Looking—Take Olive Tablets

If your skin is yellow—complexion pallid—tongue coated—appetite poor—you have a bad taste in your mouth—a lazy, no-good feeling—you should take Olive Tablets.

Dr. Edwards' Olive Tablets—a substitute for calomel—were prepared by Dr. Edwards after 17 years of study.

Dr. Edwards' Olive Tablets are a purely vegetable compound mixed with olive oil. You will know them by their olive color.

To have a clear, pink skin, bright eyes, no pimples, a feeling of buoyancy like childhood days you must get at the cause. Dr. Edwards' Olive Tablets act on the liver and bowels like calomel—yet have no dangerous after effects.

They start the bile and overcome constipation. Millions of boxes are sold annually at 10c and 25c. Take one or two nightly and note the pleasing results.

Come Early and Get Your Selection

R. C. SHAW GROCERY COMPANY

Increase Production-- Decrease Lubricating Cost!

Keystone Grease for mine car wheels is an important factor in increasing mine efficiency and decreasing fire risk and lubricating cost in the leading coal fields of America.

lengthens the life of rolling stock, saves time, labor and money—and speeds up production. It is dense, unaffected by temperature changes, water, or outside chemical attack—and one application assures perfect lubrication for from three to six months.

Keystone Grease No. 11 Medium should be used for Hatt Roller Bearing wheels. Keystone Grease No. 11 is suitable for wheel and all other types.

See the "Keystone Man" in your district, or write to

Gossip for Tonight's Tea Table

Mrs. Vily Law and Miss Dolly Smith left yesterday to visit with relatives and friends in Niagara Falls, Buffalo, Cleveland and Pittsburgh.

Miss J. A. Bueh, who has been seriously ill with rheumatism, at her home on West Fifth avenue, is recovering nicely.

Miss Esther Robinson left yesterday to spend a few days with friends in Pittsburgh.

Miss Howard Piggott has returned from a visit with relatives in Ludlow.

Miss Delia Cunningham, of Oil City, is the guest of her sister, Mrs. S. J. Waterworth on Second street.

Mrs. A. J. Pehelman and daughter Emma of Woodland, were shopping in town yesterday.

Mr. and Mrs. Harry Mann and daughter are one of friends in Germantown, N. Y.

A crowd of young people from the West Side Methodist Church held a picnic last evening at the Clearfield Driving Park.

M. and Mrs. Ward Foster and son, at Philadelphia, are visiting Mrs. Foster's parents, Mr. and Mrs. Robert Daugherty, on Fourth street.

Daniel Phillips, of Keenmore, was a business call in town today.

William Smith is spending a few days with his family in Boston, Mass.

Mrs. D. W. Anderson has returned from visiting her daughter, Mrs. Alex. Such, in Huntington.

George Trevelyan, manager of the employees of the stores here at a picnic and dance at Long Park last evening.

Miss Saleme Hastings, of Pittsburgh, is visiting her grandparents, Mr. and Mrs. John Hastings, on Cherry street.

Mrs. Alice Watson has returned from a visit with relatives and friends in Mahanoy.

Be Prepared For Influenza

GET THIS OUT

Many medical men say we will probably have another epidemic this fall.

Let us all hope and pray we will not. But at the same time let us be well prepared.

The flu as it is called usually starts with a cold and tightness in the chest. If you even suspect there is a chance that you are getting influenza, take a good dose of laxative tea, such as Dr. Carter's K and B Tea or electrolyte and send to your physician. While you are waiting for the order to "B" Beavis' Nutritive on hand and chest.

Run it on freely and never mind if it does feel good and hot. It cannot do any harm in the coldest skin.

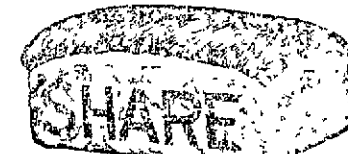

But don't stop at throat and chest. Run it on to rub this enemy of inflammation over your entire back and pecially between the shoulder blades.

This is one of the most sensible remedies you can take against influenza, which often quickly follows the flu and is just what the doctor prescribes for influenza.

You can get Beavis' Nutritive for 10 and 15 cents in yellow boxes. It is only for the cold and grippe stage.

Remember to take it at least three or four times a day. It is a powerful agent in the lungs, pleura, bronchitis, influenza and all other ailments.

STYLE SHOW WEEK

1919 Fall Fashion Show Closes Saturday Evening

This Has Been One of the Most Wonderful Expositions of What's Newest and Most Desirable in Winter Apparel

The sections of the store where we were showing the latest designs from Madam Fashion's workshop has been the center of interest for carefully dressed women from miles around.

And no wonder! When you stop to consider that the return of our buyers from the markets marked the coming of the unusual in modes that are the latest, modes that Fifth Avenue considers just the thing, Fashion's last worn designs, materials and workmanship.

The Style Show closes Saturday evening. You have tomorrow and a short time tomorrow evening to come and view these beautiful things. Come while the exposition is at its height. Come and view the show in all its splendor.

WILSON MUST STAY IN BED SEVERAL DAYS: DECREE OF HIS PHYSICIANS

LATE AFTERNOON BULLETIN DISPELS HOPE THAT PRESIDENT WOULD BE ABLE TO BE AT WORK SOON

REST CURE TO BE CONTINUED

WASHINGTON, Oct. 11—President Wilson will be forced to remain in bed for an extensive period it was announced at the White House this afternoon. Dr. Grayson made this announcement in his regular daily bulletin on the President's condition.

The bulletin said "The President shows signs of continued improvement but his condition is such as to necessitate his remaining in bed for an extended period." This was by Dr. Grayson, Dr. Francis Dercum, Dr. Sterlin Buffin and Rear Admiral Stipp.

This announcement was delayed until 12:45 p. m. more than two hours later than the usual time of announcement.

The bulletin was issued after an extensive conference of the President's physicians. Neither Grayson nor Dercum, who is a nerve specialist, saw newspaper men after the conference and no additional information was forthcoming. Today's statement came as a surprise inasmuch as the impression has been created that Wilson was so improved he might be able to leave his bed soon and resume his automobile rides. During the last 48 hours he has been taking slight part in affairs of state, getting information through Grayson and Chairman Lane of the national industrial conference. Grayson said he was informed Wilson would be able to make an appearance before that body before this session ended.

COL. HOUSE VERY ILL

WASHINGTON, Oct. 11—Col. E. M. House, member of the American peace commission has been taken ill while on his homeward voyage on the steamship Northern Pacific, according to wireless messages received today by the State Department. There were no details but it was not believed his illness was serious. House is due to arrive at New York tomorrow.

LIEUT. MAYNARD HOPES TO FINISH CROSS NATION AERIAL DERBY TODAY

SALT LAKE CITY, UTAH, Oct. 11—Lieut. E. W. Maynard, leader in the aerial derby, hopes to complete his coast to coast flight today. He landed here from Salt Lake, Utah after a half day of flying from Cheyenne. Lieut. A. C. Grayson of the plane 4, spent the night at Ralling, Wyo.

BASLE MOUNTAIN, NEV., Oct. 11—Lieut. B. W. Maynard west bound left Basle Mountain for Reno at 8:17 a. m. today.

CHICAGO, Oct. 11—Twenty-eight aerial derby racers were expected to land in Chicago today. Last night all the flyers had cleared the field here. Three had gone east, five west and the others had been held at Ryan.

AMERICANIZATION IS MOST NEEDED IN STEEL DISTRICT, SAYS KENYON

By RAYMOND CLAPPER

United Press Staff Correspondent

PITTSBURGH, Oct. 11—Foreign labor must be Americanized. This is the conclusion as announced by Senator Kenyon today as he and the other Senators investigated conditions in the Pittsburgh steel district. Legislation which will enable foreigners to be Americanized will be started at once when the committee returns to Washington. Senator Kenyon said today that the Senators were astounded by the information of foreigners in the steel district. In the district where they visited, the foreigners could not talk English and could scarcely understand. Interpreters had to be obtained before the Senators could converse with the strikers. "We should use every good influence to educate these men. This is our one hope. I have been after ammunition on this visit and I have certainly gotten it in abundance," Senator Pittsburgh steel district. Legislation which will enable foreigners Kenyon said. He plans a determined fight in Congress based on observation here. Both today and tomorrow will be spent hearing union and non-union employees of the steel companies.

ENGLAND HAS RATIFIED TREATY

LONDON, Oct. 11—King George ratified the peace treaty last night completing ratification by Great Britain. A special messenger bearing the document was dispatched to Paris.

JOHN W. SMITH DIED LAST NIGHT

John W. Smith passed away at his home on Second street last night at 9:30 as the result of a long illness caused by locomotor ataxia. The deceased was the eldest son of the late Mr. and Mrs. George W. Smith and conducted the well known Smith's mill in Clearfield for many years. He was born at Port Matilda, Centre county, fifty-nine years ago and when a boy removed with the family to Curwensville, where he resided until about 1884 when they came to Clearfield and Mr. Smith built his mill on Leavy avenue. At the death of his father, in company with his brother, John W. succeeded to the business and had since conducted same in a highly successful manner.

John W. Smith was a good business man, a good citizen; genial and companionable he possessed a host of warm friends who will sincerely mourn his taking away. He never married and is survived by one sister, Mrs. Oscar Mitchell, of this place.

The funeral will be held from his late home Monday afternoon at 2 o'clock. Rev. Dr. E. C. Reeve, of the Presbyterian church, officiating. Interment in family plot in Hillcrest cemetery.

LARGE CROWD SEES LOCAL TALENT AT Y. M. C. A.

A large crowd enjoyed a good local talent entertainment by our own boys and girls.

The association secured autos and brought the children from the Children's Home who opened the entertainment with the singing of America. The Secretary announced that he would give three tickets to the movies to the three boys or girls having the most entertainment. Twenty boys and girls entered the contest. Music, song, and gymnastics stunts were the entertainments. The judges awarded the contest to John Thomas, Charles Hile, and Edwin Brown.

Miss Evelyn Smith played several good selections on the piano while the audience sang popular songs. There will be a free entertainment every Friday evening at 8 o'clock.

MEDIX RUN IS NOW RAPIDLY DISAPPEARING

The once prosperous town of Medix Run, Elk county, will soon be but a memory, for the only industry in the place now, the Mosser tannery, is rapidly being dismantled. Time was when Medix Run not only had the large tannery but also several sawmills in the vicinity, in the heyday of its youth. The sawmills went first and it was not until this summer that it was decided to close the tannery, the reason not being known, but as there is no more back in the immediate vicinity, and as it is out of the beaten tracks of commerce, that likely caused the suspension.

HUNTERS WILL BE PLENTY

The hunting season for ruffed grouse or pheasants and squirrels, does not open until October 20th yet County Treasurer Kline up to the close of business this evening will have issued over 2600 hunter's licenses. There were 7200 licenses issued in Clearfield county last year and from the way the applications are coming in that number will be exceeded this year.

BIRTHDAY PARTY

Misses Helen Louise and Jane Leonardson and Master Billie Leonardson entertained about seventy of their friends this afternoon from three to five at their home on Second street, tomorrow being Helen Louise's seventh birthday.

Ball games were first played by the ancient Greeks and Romans, and consisted merely of throwing and catching the ball. This was found to be an excellent method of strengthening the figure and keeping the body healthy.

The average number of microbes in the teaspoonful of milk kept under the most sanitary conditions is 6,000,000. Some of them are probably doing useful work, whilst others are decidedly pernicious.

PROMOTER OF BRICK PLANT IS ARRESTED

Cooper Township Residents Make Charges After Putting \$10,000 Each in Stock

HELD IN BAIL FOR COURT

Thomas M. Wilson, a promoter, who is alleged to have come from Pittsburgh into Clearfield several months ago and began the promotion of a fire brick plant at Winburne, this county, was arrested last night at Punxsutawney by Constable Thos. Barr of Winburne, charged with false pretense on a warrant issued by Squire F. C. Chorpennin on three separate informations made by Dr. W. P. Thorpe, Edward T. Carlson and Andrew J. Peterson, all of Cooper township.

The facts or alleged facts as gathered here following a hearing held before Squire Chorpennin this morning are about as follows:—Several months ago Promoter Wilson appeared in the Cooper township county and after prospecting and leasing 700 acres of fire clay and 400 acres of coal from T. L. Snyder of Clearfield, proceeded to organize the Winburne Fire Brick Company and announced that a large fire brick manufacturing plant would be erected by the company along Moshannon creek just outside of the village of Winburne.

Thus far the brick yard has not developed entirely to suit the stockholders and an accumulation of this disquietude resulted in the promoter's arrest.

Wilson is charged with false pretense in the information made and each prosecutor places the amount of money involved at \$10,000.

It is alleged by the prosecutors that instead of taking the lease for the coal and clay lands in the name of the Winburne Fire Brick Company, thus making those holdings the common property of all the stockholders, Wilson had leased made out to himself individually without the necessary or any transfer clause.

Believing that matters concerning the brick company were not as alleged by Wilson, the stockholders pooled their issues and after employing A. H.

ALTOONA, TYRONE AND HOLLIDAYSBURG SHOPS IDLE

ALTOONA, Oct. 11—The Pennsylvania railroad shops in this city, Tyrone and Hollidaysburg are standing still this morning. Practically every man of the 15,000 employed here is out on strike. Traffic is badly crippled as the steep mountains make it unsafe to send out trains which are not thoroughly inspected. There is not the slightest sign of disorder. Men remained quiet at home.

KING AND QUEEN OF BELGIUM IN OILSKINS EXPLORE NIAGARA FALLS—This is the most informal photograph taken of the King and Queen of Belgium since their arrival in this country. The King and Queen donned oilskins and they covered the entire area around Niagara. When the King was dressed, the attendant who was helping him announced: "All right, King, your ready," and his Majesty smiled.

ARREST ALLEGED SHOOTER OF BEE TREE CUTTER

This is not a very good year for honey and accordingly when a fellow has any honey or his eye on some he guards it jealously and naturally gets real peeved if some son-of-a-gun comes along to take it from him. At least that is the conclusion arrived at by Newton Buzzard and some of his Falls Creek friends following recent developments.

During the night of September 28th last Buzzard headed a party of friends to the vicinity of London mine just outside of DuBois, where they cut a bee tree. The party was engaged in robbing the tree of its store of sweets when a gun shot was heard and a bullet lodged in Buzzard's shoulder.

Honey-gathering unconsciously stopped while Buzzard's companions conveyed him to the DuBois hospital for medical aid. Friday morning Buzzard hailed Samuel Sollada before Squire J. J. Schell at Falls Creek and charged him with shooting him and stealing honey unearthed by the party after the tree had been cut down and while he and his friends were on the way to the hospital.

It is said that a shirt belonging to one of the party and some of the honey was found at Sollada's home, close to the scene of the shooting and the Squire held Sollada to answer at the next session of the Clearfield county quarter sessions court.

Woodward, Miller & Hartswick, and A. M. Liveright, Esqs., made the move which resulted in the promoter's arrest.

Wilson was in Clearfield yesterday and left here for Pittsburgh. Constable Barr followed him to Punxsutawney by automobile and when he reached that place found his man at the B. & P. station with his ticket for Pittsburgh purchased and in his pocket. They left Punxsutawney for Clearfield at 1:30 o'clock this morning.

Squire Chorpennin held Wilson for court, asking \$2000 bail on each charge. Hazard A. Murray, Esq., represented Wilson at the hearing.

Wilson and his attorney have been busy all day trying to arrange for the \$6000 bond to keep him out of jail but up to the time of our going to press had failed to complete the negotiations, and Constable Barr was camped on his trail waiting for results.

NO HOUSE TO HOUSE CANVASS BEING MADE

RELIEF COMMITTEE DESIGNATES STORES THROUGHOUT CITY WHERE CONTRIBUTION MAY BE MADE

CAMPAIGN MAY BE LENGTHENED

The committee in charge of the Jewish War Relief campaign in Clearfield are much pleased over the way our people are responding in these latter hours of the drive, while County Chairman Kerr says his reports from throughout the district indicate that the quota will no doubt be reached if the final day's contributions stand up to expectations.

It has not been the purpose in this drive to make a house to house campaign, as was the case with all similar drives, and no doubt many people have been waiting at their homes prepared to greet the solicitors substantially when they call. In order that this apparent lapse may be supplied and all be given the opportunity to contribute toward this extremely worthy charity and lifesaving movement, the committee has arranged central points in the different sections of town where these contributions may be made and proper receipts and credit given.

Down in the Fourth ward contributions may be turned in to Overly's and Gilliland Bros.' stores. On the West Side similar arrangements have been made and contributors may leave their money at the stores of Wm. Boyce & Son and Workman's store. In the town proper contributions may be left at Shapiro's, Mirkin's and Stewart's Drug store.

This should give everybody a chance to contribute and no humane person able to do so should fail to at least do his or her bit in this, the last and most pressing of all war relief work. "Cast thy bread upon the waters," and remember the reward of even "a cup of water in His name."

All of the industrial plants in Clearfield have been visited but thus far the solicitors have reported from but two. These two were the Riverview plant of the Clearfield Brick Manufacturing company and the Elk Tanning company's local plant. At each the contributions averaged a little more than \$2.00 per man which is certainly a fine showing and will mean a big swelling of the fund if all the different works about town do as well.

Chairman Kerr's reports up to noon today show that the campaign must be continued to October 15th at least if we are to realize our full quota, as in a number of the districts the drive was allowed to lag the forepart of the week.

With that end in view the following telegram was sent to each local committee chairman:

Clearfield, Pa., Oct. 11, 1919
Dear Sir: Reports received indicate necessity of continuing campaign to 15th. Suggest you call meeting of your workers for Sunday and outline intensive campaign for next three days.

FRED B. KERR
County Chairman

WEATHER CAUSE OF SHORT HONEY CROP ACCORDING TO GREEN BELL

Nearly all our home made weather prophets are predicting a mild winter this year and are digging up all the old-line weather proverbs to prove their prognostications. But the United States weather bureau is getting its long-range weather system down to an exact science and the weather man continues to "guess" with added accuracy each season.

Meteorology as an applied science is still in its infancy but W. J. Humphreys, Ph. D., professor of meteorological physics, United States weather bureau, is one of the foremost men in his profession, and is doing work of inestimable value to commerce and agriculture.

Time was when the goosebone prophet was our sole guide in interpreting the signs of the sky. Many were the quaint rhymes he made in foretelling the seasons and predicting in his crude way what sort of weather might be expected on the morrow.

With the government observer the forecasts are far from guesswork but with the advance of meteorology the time will come when the weather forecaster will be next to infallible.

In the meantime the government has published in pamphlet form Doctor Humphreys' entertaining and instructive folk-lore article entitled "Some Weather Proverbs and Their Justification." He begins by quoting from King Alfred:

"So it falls that all men are With fine weather happier far." This thousand-year-old observation, says Doctor Humphreys, by England's wise ruler recognizes the fact that

the weather makes a great difference in the way we feel and that, accordingly, it is no wonder that so many of our old weather proverbs deal with the weather.

Regarding his landy, Doctor Humphreys says a naturally every one asks "What of the coming season?" And especially is this an important question for the farmer, for correct answer to it would tell him what crops to plant and when; whether upon hill or lowland, in light or heavy soil, and how best to cultivate them—vitae points, every one, for his success. But whatever we may hope ultimately to accomplish, reasonable forecasting today is beyond the pale of scientific meteorology, though proverbial meteorology is full of it. However, a few of the reasonable proverbs that deal with the weather, rather than types of weather are rationally founded. Among them are:

"First year
"First year
"Year of snow
"Year will grow."
Or in still another form:
"A year of snow, a year of plenty."
That these and similar statements commonly are true is evident, it is (Continued on Page 2)

Sending a Senate committee to Pittsburgh for two or three days to find the cause and prescribe a remedy for the industrial war there is just about as sensible as sending a bunch of Pennsylvanians to North Dakota to mediate in a wheat producing trouble or into Texas to adjust a cow puncher dispute. Those senators who are at Pittsburgh come from Iowa, Tennessee, South Dakota, Colorado and Massachusetts and we venture to say that while many of them are good men in their line none of them would know a steel works from a bank robbery.

AMENDMENT BY JOHNSON IS CERTAIN TO PASS

The adoption of the Johnson amendment to the peace treaty by a majority of two votes was claimed today by Republican leaders in the Senate after a careful canvass of the situation had been made. The amendment, if adopted, would give the United States the same number of votes as the British empire in the League of Nations.

It is asserted that all but four of the Republican senators will vote for the amendment. Their vote offset by four Democrats—Reed, of Missouri; Gore, of Oklahoma; Walsh, of Massachusetts, and Shields of Tennessee. The Republicans who will refuse to support the amendments are: McCumber, of North Dakota; Nelson, of Minnesota; McNary, of Oregon, and Colt, of Rhode Island.

TEST OF 2.75 PER CENT. BEER MADE BY PSYCHOLOGIST

There are two persons in the United States who know whether 2.75 beer is intoxicating and, if it is, just how potent it is in the befuddlement of the drinkers' mentality.

The persons with this exact knowledge are Prof. Hollingsworth and Woodward, of the Department of Psychology, Columbia university, who have just completed a series of tests upon six Columbia students. Their findings are to be used as evidence in the injunction proceedings of the Jacob Hoffman Brewing Company in the U. S. district court to prevent all persons from interfering with the manufacture of 2.75 beer.

The professors refuse to announce as yet what they have learned, but the men who underwent the test are not so reticent. They declare they have been as sober as deacons thruout.

THE PRESIDENT'S HEALTH

Though the recovery has been slow and the bulletins so brief and meaningless that we do not have a very good understanding of the true nature of the condition of the President it is gratifying to note that for the past several days there has been encouragement in the bulletins put out by his attending physicians. The continued illness of Mr. Wilson will materially affect the welfare of the country and have some bearing on the outcome of the league of nations and treaty controversy. This would be unfortunate. Whether we accept or reject the treaty or whether we take it whole or in delectable portions is not of so much importance as to have it disposed of and out of the way.

BACKWARD OR FORWARD—WHICH?

After having been abolished for practically two years, death punishment is again in vogue in Missouri, effective yesterday. At the last session of the Legislature a bill restoring capital punishment for murder was passed.

Despite much agitation against the passage of the bill it was passed by the solons, who believed it would aid in the prevention of crime.

Experienced In Service

Organized in 1865, the service of the County National Bank to the people of Clearfield County has extended over a period of more than half a Century.

That it has served its customers well is attested by the fact that they have entrusted to its care more than \$4,000,000.00 of their money.

You are assured of the best of banking service if you do business with the County National.

The officers will be glad of an opportunity to talk it over with you.

The Essex Is With Us

We Will Sell This New Light Weight Quality Car. Our Full Endorsement is Added to All That Everyone Says for it

Come and Ride In It

When the Essex made its first appearance we in common with other dealers were a bit skeptical.

Curiosity led us to take a ride in the Essex. That was enough. The way the Essex rode over rough roads and pavements was amazing to us with our accustomed idea of light car riding qualities.

But when the Essex started to climb hills our admiration was finally and completely won. It was not necessary to show us how quickly the Essex accelerated or how easily it answered every touch of the wheel. It was not necessary for the demonstrator to say a word. The Essex had us at its feet.

The beauty of the Essex design and the trimness of its lines only added to our enthusiasm. In

every respect the Essex was the equal of cars many times its cost.

So we decided to get the Essex representation if it were possible. It was not an easy task. The quick popularity of the Essex led other dealers to also want to sell the Essex. The Essex people chose only those dealers who meet the highest standards. We had to show our qualifications. At last we received word that we were to have the Essex for this territory.

An Essex is now at our store. We have a demonstrating car. Come, see, and ride in it. You will be just as enthusiastic about this new type fine car as we were. It combines every advantage of light car economy and flexibility with large car comfort and endurance. Be sure and ride in it.

CHINESE BECOME SOCIAL PIONEERS

Men and Women Form Good Fellowship Club Together Under Y. W. C. A. Leadership.

The Good Fellowship Club has made its appearance in society in Hangchow, China.

It began with the desire of a progressive young Chinese doctor to give his compatriots, especially the Christians, some healthful form of social intercourse.

Channels for a good, clean, social life among Chinese people are very limited. Until recently becoming a Christian often meant cutting oneself off from one's friends and relatives, also from feast days and festivals. As for joint meetings of men and women—well, such a thing was never heard of in decent society.

The young doctor's plan of having a club where men and their wives might come together to enjoy a good time with each other was discouraged and snuffed out. However, a few people agreed to be pioneers in the cause of social intercourse, and Y. W. C. A. secretaries agreed to help make the club a success.

At first the meetings of the club were laughed at by outsiders and the whole affair considered a joke. However, the members kept on meeting, first at one house and then at another. Soon the men got over the feeling of strangeness at starting out with their wives on Tuesday evening for a friend's home. The women began to enjoy the outing and to take part in the discussions—an intelligent part, too—much to the surprise of their husbands.

The membership grew. The club's fame began to spread. At first the discussions of the club were conducted in English. Soon it became necessary for them to be carried on in Chinese so that more of the women could understand and take part. Many of the scoffers began to apply for admission. The members began indulging in much friendly chaffing and occasionally forgot their dignity to play jokes on one another. Finally it became so large that it had to be divided into two sections, which met separately three Tuesday evenings in the month and on the fourth Tuesday met together for a joint session, with a special program.

Students just returned from American and German colleges, an old Buddhist scholar who is particularly interested in the discussion on Buddhism and Christianity, merchants, railroad and government officials compose the men's side of the room. The women are still a bit shy about talking in front of so many people, but many of them show signs of great executive ability and power of leadership. They are all well poised, clear thinking individuals, who will have a great influence on China's future. They discuss among themselves group meetings in their various churches, the lack of amusements for Chinese women, social service work, subscription lists for the orphanage, cake making, types of stoves, baby diets, the latest engagement and other topics such as one would hear discussed by a group of women gathered together any place in America.

The social part of the evening is given over to games, which at first astounded the sober Chinese gentlemen, but which they take up with great zest after the first evening. And their wives enjoy it just as greatly.

Real American pioneers are the latest thing which the club has tried, and they are a great success. A Christmas play is being planned now.

The dove of peace is a patient old bird.

Aviation still has its dangers, its mishaps and its tragedies.

Some fellows can analyze an election result to prove anything.

One thing favorable to a hoe and a rake—neither needs gasoline nor oil.

The ex-crown prince declares he is not an idiot. But how can he prove it?

Important business that will be of interest to the members will be transacted at the next regular session of the Avon, Wednesday evening, October 15th, 1919. There will also be an election of a trustee to fill an unexpired term.

E. J. SWALES, W. P.
J. J. NOLL, Secretary 011-31e.

"Cakes and Beer, and Washing Here"

Before a ramshackle house in a little New England village there used to hang this sign:

"Hiram, the widow's son, I hope,
"Can furnish customers with soap,
"Such as will make the washing day
"Pass off as pleasant, e'en as May,
"Cakes, and beer, and washing here."

Hiram had the right idea. He knew that there were people who wanted what he had to sell. The difference between Hiram and the modern advertiser is that the former had to trust to somebody passing to see his sign. He could not bring his sign to everybody.

The modern advertiser with something to sell that he feels you want, saves you the trouble of going to his place to see about it. Readers of advertisements visit all the advertisers at a single sitting.

This is a service that those who advertise are rendering you, just as the clerks they hire, the deliveries they make, are service. They are saving your time, energy and money, by bringing their establishments to you through the advertisements.

Read the advertisements with this thought in mind.

MRS. GORDON, HOSTESS

Mrs. John Gordon was hostess last evening at a dinner and bridge at her home on Locust street, in honor of Miss Josephine Tonner whose marriage to Mr. Lucius W. Guernsey will be an event of this evening. Covers were laid for forty-five.

Following the dinner, bridge was played at ten tables. The lady's prize, a beautiful vase, was won by Miss Pearl Moore. Earl Shirey won the gentleman's prize, which was an ash tray.

The out of town guests were Lucius W. Guernsey of New Jersey, Don and John Freese of Canton, Ohio, and Miss Miriam Werring, of Johnstown.

NEWS OF OUR NEIGHBORS

CURWENSVILLE

Mrs. John Hipsch of Pittsburgh is visiting her sister, Mrs. John Hawk, and Miss Anna Fitzgerald.

Mrs. Jane Fitzgerald and daughter, Mrs. John Hipsch, left for their home in Pittsburgh Friday after a pleasant visit at the home of Mrs. John Hawk.

Miss Bernice Labord is attending a house party at State College.

Mrs. C. S. Russell returned home Wednesday evening, after spending three weeks with her daughter, Mrs. Nora Ganev, at West Point.

Ex-Congressman C. B. Patton, who resides on a farm near Harrisburg, spent Wednesday and Thursday in Curwensville, looking after real estate interests.

Messrs. John Haines and Harry S. Brown went to Lumber City Wednesday evening and installed the new officers of the Odd Fellows' lodge at that place.

Messrs. Smith and Woodward are having erected at Naumton, a new and commodious dwelling house.

Messrs. H. L. Caldwell and Son have just completed a new dwelling house at Easton, for John P. Lavin.

Mrs. Isaac Black left Thursday for Woodland, where she will visit the balance of the week with a sister and other relatives.

Messrs. Caldwell, Wolf and Nottis have closed a deal by which they became owners of a timber tract, the purchase was made from David Martin, of Glen Campbell, and lies in Indiana county close to the Burnsburg township line.

Mrs. W. I. Dale entertained her new Sunday School class Thursday evening. Her handsome Walnut street residence is a sort of "get better acquainted" affair and a recent emigrant themselves as only a few of the guests. The entertainment, hosted by the retiring, homeward-bound residents, was served all around.

P. T. Smith has purchased some coal interests over on the Harp, Bloom and will operate the mine during the winter months.

For aught money holdings of the people that the W. S. Savings Division has a really tremendous opportunity to give Secretary Glass has sounded a call for the exercise of the utmost vigor in pushing the Savings Movement. I feel sure in predicting that the Third Federal Reserve District will respond to that call in the same spirit and with the same effectiveness that it has shown upon every occasion when national welfare required to be advanced.

It is an intention to comply fully with the order of Secretary Glass to stimulate the sale of Thrift and Savings Stamps and to encourage Savings in every sensible and legitimate way.

The savings movement is not a government campaign for funds. It is a people's movement to build up national strength of the people and in the people and in turn to be of the greatest possible national economic stability.

It is a quick to support a movement for their benefit when it is properly and intelligently led before them. It is with renewed vigor and enthusiasm to do our work of placing the nation from disaster to financial security through the safe channel of national savings.

TRUSTEES OF COUNTY MOTHERS ASSISTANCE FUND MAKES REPORT

In consideration of the fact that the Board of Trustees of the Mothers' Assistance fund of Clearfield county is unable to grant a assistance to an individual mother in the county, the board of trustees on the 10th inst. until the fund from \$3340 which was the sum of all grants in May 1919. The fund is the result of the latest appropriation for the Mothers' Assistance fund which has been made by the Legislature. The Board feels that an explanation should be given to the public regarding the present condition of the fund. At no time since the creation of the fund has it been possible to assist all of the needy mothers of Clearfield county. The influence of the fund alone has brought up to the attention of the board. Our women, however, the fund has never been able to meet more than one third of the need and the grants made to the families receiving help have been very inadequate in many cases.

The Mothers' Assistance fund law was passed in April 1913 for the purpose of assisting widowed mothers of the wives of insane men who are dependent upon their own effort for support and who have proved the character and ability of a mother supporting their children in their own home. The law recognized that providing the mother is a good mother she is the best as well as the cheapest caretaker of the child and in helping the mother to keep the home together the state is increasing its own as well as the child's best interests.

The State Appropriation for 1919-1920 was \$115,991.11. Clearfield county's share of this fund for each of the two years from state and county was \$3716.66. However the law provided that during the second fiscal year (June 1918-May 1919) the amount appropriated to the county was reduced to \$3716.66. The county's share of the fund for the year ending May 31, 1919, was \$3716.66. The county's share of the fund for the year ending May 31, 1920, was \$3716.66. The county's share of the fund for the year ending May 31, 1921, was \$3716.66. The county's share of the fund for the year ending May 31, 1922, was \$3716.66. The county's share of the fund for the year ending May 31, 1923, was \$3716.66. The county's share of the fund for the year ending May 31, 1924, was \$3716.66. The county's share of the fund for the year ending May 31, 1925, was \$3716.66. The county's share of the fund for the year ending May 31, 1926, was \$3716.66. The county's share of the fund for the year ending May 31, 1927, was \$3716.66. The county's share of the fund for the year ending May 31, 1928, was \$3716.66. The county's share of the fund for the year ending May 31, 1929, was \$3716.66. The county's share of the fund for the year ending May 31, 1930, was \$3716.66. The county's share of the fund for the year ending May 31, 1931, was \$3716.66. The county's share of the fund for the year ending May 31, 1932, was \$3716.66. The county's share of the fund for the year ending May 31, 1933, was \$3716.66. The county's share of the fund for the year ending May 31, 1934, was \$3716.66. The county's share of the fund for the year ending May 31, 1935, was \$3716.66. The county's share of the fund for the year ending May 31, 1936, was \$3716.66. The county's share of the fund for the year ending May 31, 1937, was \$3716.66. The county's share of the fund for the year ending May 31, 1938, was \$3716.66. The county's share of the fund for the year ending May 31, 1939, was \$3716.66. The county's share of the fund for the year ending May 31, 1940, was \$3716.66. The county's share of the fund for the year ending May 31, 1941, was \$3716.66. The county's share of the fund for the year ending May 31, 1942, was \$3716.66. The county's share of the fund for the year ending May 31, 1943, was \$3716.66. The county's share of the fund for the year ending May 31, 1944, was \$3716.66. The county's share of the fund for the year ending May 31, 1945, was \$3716.66. The county's share of the fund for the year ending May 31, 1946, was \$3716.66. The county's share of the fund for the year ending May 31, 1947, was \$3716.66. The county's share of the fund for the year ending May 31, 1948, was \$3716.66. The county's share of the fund for the year ending May 31, 1949, was \$3716.66. The county's share of the fund for the year ending May 31, 1950, was \$3716.66. The county's share of the fund for the year ending May 31, 1951, was \$3716.66. The county's share of the fund for the year ending May 31, 1952, was \$3716.66. The county's share of the fund for the year ending May 31, 1953, was \$3716.66. The county's share of the fund for the year ending May 31, 1954, was \$3716.66. The county's share of the fund for the year ending May 31, 1955, was \$3716.66. The county's share of the fund for the year ending May 31, 1956, was \$3716.66. The county's share of the fund for the year ending May 31, 1957, was \$3716.66. The county's share of the fund for the year ending May 31, 1958, was \$3716.66. The county's share of the fund for the year ending May 31, 1959, was \$3716.66. The county's share of the fund for the year ending May 31, 1960, was \$3716.66. The county's share of the fund for the year ending May 31, 1961, was \$3716.66. The county's share of the fund for the year ending May 31, 1962, was \$3716.66. The county's share of the fund for the year ending May 31, 1963, was \$3716.66. The county's share of the fund for the year ending May 31, 1964, was \$3716.66. The county's share of the fund for the year ending May 31, 1965, was \$3716.66. The county's share of the fund for the year ending May 31, 1966, was \$3716.66. The county's share of the fund for the year ending May 31, 1967, was \$3716.66. The county's share of the fund for the year ending May 31, 1968, was \$3716.66. The county's share of the fund for the year ending May 31, 1969, was \$3716.66. The county's share of the fund for the year ending May 31, 1970, was \$3716.66. The county's share of the fund for the year ending May 31, 1971, was \$3716.66. The county's share of the fund for the year ending May 31, 1972, was \$3716.66. The county's share of the fund for the year ending May 31, 1973, was \$3716.66. The county's share of the fund for the year ending May 31, 1974, was \$3716.66. The county's share of the fund for the year ending May 31, 1975, was \$3716.66. The county's share of the fund for the year ending May 31, 1976, was \$3716.66. THIS COLUMN FOR BOYS
AND GIRLS AND PARENTS

WHAT BOYS CAN BE

United States Consul

By R. H. Alexander

"Uncle Bob, what is a United States Consul? You have studied Political Science and were overseas in the A. E. F. You ought to know."

"Well, Skip, a consul is the representative of the government in a city or district of a foreign country."

"What is his job?"

"He takes care of the interests of all Americans who may be in his district, whether it is helping them out of trouble, or assisting them in traveling about. By trying to stimulate trade, he promotes a friendly feeling between the United States and the country he is in. He reports to our government the crops and products of his district. He suggests articles made in America which might find a market there. There are only a few of his duties."

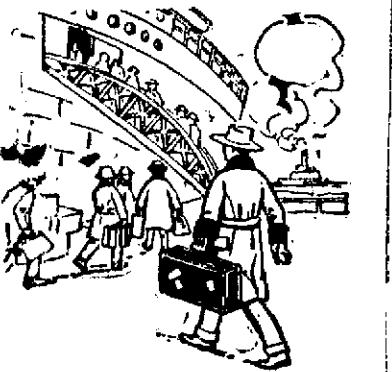

"How can a fellow be a consul?"

"They are chosen by civil service examinations. To pass the exam you must know foreign languages, especially French and Spanish; commercial and marine law, geography, economics, general history, arithmetic, international law, and commerce. You can get all of them in any good college."

"If you pass the exam successfully you will probably be started as a vice-consul in some small district, or as a consular assistant in a larger one. Later, if you produce the goods, you might be made a consul or a consul general."

"All your life you must be in a foreign country. If you like to travel and want to see other countries, here is your chance."

"I have been looking this up a bit myself lately and I am sending for Bulletin No. 37, 1919, Bureau of Education, Department of the Interior, Washington, D. C. It is a report of a conference on the subject and ought to give us some information. We will also apply for information to the Consular Bureau, Department of State, Washington, D. C."

The longest mile is the Norwegian, which contains twelve thousand one hundred and eighty-two yards.

YOUR ATTENTION, PLEASE

If your bowels need a wholesome physic that thoroughly cleanses, sweetens the stomach and benefits the liver, take a Foley Cathartic tablet tonight and you will feel better in the morning. It is a quick and safe remedy for sick headache, biliousness, bloating, sour stomach, gas, bad breath, indigestion, constipation or other condition caused by clogged or irregular bowels. Foley Cathartic tablets cause no griping or nausea. Sold everywhere.

Throughout Belgium generally the birth-rate declined during the war by 50 per cent. and the population is now about the same as in 1910.

WHAT GIRLS CAN BE

Dietist

By Elizabeth Moter

"Some women know how to cook, but they don't know what to cook. Their men's delight the taste, but ruin the stomach."

"Of course old Mrs. Dennis is a wonderful cook. Look how long she's been practicing! But why can't these young girls learn the same thing and learn it a whole lot quicker? Cooking isn't an instinct; it's a science."

"I tell you, I'm strong for this 'domestic science.' It takes just so much salt to make a roast taste right, whether Mrs. Dennis puts it in by instinct, or a young lady puts it in by science. It tastes just the same. Let the girls study cooking scientifically, and not try to pick it up second-hand."

"What good does it do to study education four years and then get married right away? Give me a well-cooked breakfast instead of a recitation any day!"

A Young Lady Speaks

"Quite right," says the pretty young domestic science teacher. "You are talking about a dietist. She is a

lady who knows how to cook, what to cook, and why she cooks it. She doesn't have to stand around waiting for some man to propose, either."

"Every hospital needs a head dietist, with assistants. The chief often gets several thousand dollars a year; the others get \$60 to \$80 a month, with board, lodging, and experience thrown in. Hotels and restaurants need experts. Independent lunch rooms and tea rooms pay well. Corporations and cities often hire dietists to visit homes, teaching wives and mothers to cook better. Farmers' institutes do the same. Opportunities are growing all the time. Some of these days the community kitchen will open up a new field."

"Our high school girls are writing to the United States Department of Education in Washington for bulletins telling of investigations made by the big state universities. A number of the girls are specializing in chemistry and domestic science. They intend to study dietetics in a state university or special school."

SPORTING NOTES
OF THE SEASON

The athletic show at the Park last evening attracted a pretty fair-sized crowd regardless of the downpour of rain. The program consisted of five different events, the "big time" being the wrestling match between Leslie Roberts, the unbeaten Boardman whirlwind and Charles Platts, of Jaine. The preliminaries were carried thru without a hitch but the main bout ended in a fiasco after about 25 minutes of as pretty a wrestling match as has been seen here in a long time.

Roberts and Platts proved to be real rivals and went to the mat for blood from start to finish. They gave a pretty exhibition of fast mat work for about twenty minutes. Roberts allowing Platts to do all the work. The husky Greek exhibited all his tricks and skill in trying to down the wiry son of "Bloody Knox" but to no avail. The man from Maine would secure his favorite hold and start in to pin the shoulders of his adversary to the mat, but just as he expected to realize on his strength and skill Roberts would squirm out of his clutches and make the other fellow writhe and squirm to escape the Roberts famous head hold.

Roberts started after his man in the last five minutes and only Platts' squirming off the mat and through the ropes saved him by the narrowest margin from two falls. Platts saw what was bound to come and started in to rough it up a little. This did not suit the spectators who desired clean wrestling and the best man winner, and they voiced their protests. Referee Bill Gardner warned Platts and when he offended again and attempted to hunt Roberts with his head the referee disqualified him and gave the match to Roberts.

The first preliminary was a wrestling bout between the two Boardman midgeys, Kroski and Petroia, and was won by the latter in five minutes. Meise and "Whiffletree" then went on for a five minute wrestling match and put up a furious contest for a draw.

At this juncture announcement was made of the McCoy-Wolgast ten round boxing contest at the Park next Wednesday evening and young McCoy who is training here, was introduced and gave an exhibition of his training, skipping the rope, shadow boxing and sparring one round with each of four local scrappers. McCoy was put thru his paces in rapid style and demonstrated that he is some hand in an eighteen foot ring.

The battle royal brought seven local lads into the ring and they hampered each other to the great amusement of the spectators. "Foggy" Jordan, welterweight champion of Mineral Springs, was one of the contestants, and as all hands piled into Jordan he was given a very hot reception. He put up a whirlwind battle for ten minutes but had to succumb to the odds against him. Ray James was the winner of the bout as he proved to be the best stayer.

The main bout was a disappointment in that it did not go to a finish, but Clearfield fans demand clean sport, regardless of everything else, and the action of Referee Gardner was generally commended.

During the evening Editor Stewart of The Progress made an appeal for the Jewish War Relief, and at its conclusion Collectors A. D. Bigler, Geo. E. Zerkos, C. T. Kurtz, and A. E. Leitinger circulated thru the crowd and secured a total of \$36. Following the ending of the bout and the disqualifying of Platts his share of the proceeds, 25 per cent of the gross, was also donated to the relief fund and as a result the local Jewish War Relief fund was enriched \$34.37 or \$70.37 for the evening.

Clearfield boxing fans will be given a rare treat on Wednesday evening, October 15th, when Johnny Wolgast, of Cadillac, Michigan, and middleweight champion of that state, and Young McCoy, the Altoona aspirant for middle-weight honors, meet in the Exposition Building at the Clearfield Driving Park.

Wolgast is a brother of former champion Ad Wolgast and has met

and defeated some of the best middleweights in the country. He has to his credit bouts with such topnotchers as Joe Borrell, Johnny Howard, Larry Williams, Jack McCarron, Jackey Clarke and a host of others.

Wolgast will come to Clearfield Wednesday morning in the pink of condition for this bout and McCoy will find he has no cinch when he goes into the ring with the white boy.

McCoy is a comer and this bout promises to be the best and fastest ever staged in this section. The heat will be strictly on the level and the best man should win.

Manager A. A. Delozier of Altoona, has charge of Wolgast's interests, while "Tunk" Edwards is representing McCoy.

It is expected that the winner of this bout will be signed up to meet like Griffin in a few weeks.

CHICAGO, Oct. 11.—The players on the Cincinnati team by annexing the last contest and thereby capturing the series, will receive \$117,257.60, which divided into 22 1-2 shares will net each share \$5,207.01.

The White Sox will draw down \$78,104.70 and each of the 21 players will receive \$3,724.03.

The National Commission obtained \$72,241.40, or one-tenth of the total receipts, or \$722,414 taken in, exclusive of war tax on all eight games.

The total for eight games follows:

Attendance	2336,926
Receipts (exclusive of war tax)	\$722,414.00
Players' share	210,340.70
Clubs' share	339,822.90
Commission's share	72,241.40
Total for Cincinnati Nationals	117,157.60
Each Red player	5,207.01
Total for Chicago Americans	78,104.70
Each player (24 shares)	2,254.36
Second teams of leagues	
New York Nationals and Cleveland Americans	each 19,526.21
Third teams of leagues	
(Chicago Nationals and New York Americans)	each 13,017.45

While there are 24 players on the Reds' team, three were allotted only a half share by a vote of the entire team, thereby cutting the total shares to 22 1-2.

GRAMPIAN FIRE AS SEEN BY A MAN ON THE JOB

Curwensville Fire Company deserves a good bit of praise for the part they took in the fire Wednesday night. Their quick run and the hard way they had of getting water here made their efforts all the more appreciated. But it is all a mistake about them getting the fire under control, for the bucket brigade—a big part of them girls and women—had the fire under control when the Curwensville fire truck reached here. The Curwensville writer was not on the ground or was misinformed as to the truth.

Gampian people are very thankful for the fire company's quick response and good work here. But don't forget the ladies—when a big crowd of men were standing around doing nothing. Where is woman suffrage?

FOR MEN WHO WORK HARD

Factory workers, railroad men, farmers, miners, mill employees and all men who work at hard, straining physical labor are more or less subject to kidney trouble. Nature gives warning signals by frequent lameness, stiff joints, sore muscles, backache and rheumatic pains. J.G. Wolf, Green Bay Wis., writes: "Foley Kidney Pills relieved me of a severe backache, that had bothered me for several months. A few bottles fixed me up in good shape." Sold everywhere.

FEMININE HOSIERY

To achieve the right effect in women's apparel, one must have the right hosiery with the right shoes. In other words it is the minor details of a costume, that stamps it as distinctive.

We have just received a shipment of hosiery including every fashionable shade and style, suited to every type of fashionable shoe. These stockings, made of pure silk thread would sell at \$2.50 and over if stock had been purchased at present selling prices, but we were fortunate in securing this stock at former prices, and therefore offer them to our patrons at \$2.00 and \$2.25. Come in white, black, cordovan, grey and covert.

Make your selections early, while the assortment is large.

Blouses Greet the New Season

We are to have a variety of new and unique styles in blouses this fall. Already the advance models have passed in review and manufacturers are preparing still others to follow. These will show modifications and adaptations of the styles already presented and of the wholly new forms of trimmings that have been brought out. American producers, now in competition with Europe for the trade of the world, aspire to making the American blouse pre-eminent, like the American shoe, in style and as good as the best in material. Therefore we expect, with good reason, blouses that will accomplish the utmost that designers can do in a variety of styles.

Tailored blouses are shown in flesh, white, navy and black satin and with high necks and long sleeves. Fine tucks in groups that form stripes prove to be appropriate and most popular for trimming. The decorative influence appears in tailored models having collars and frills of that period. Georgette and foulard are combined in other tailored blouses, the plain georgette forming the body and sleeves, with cuffs, vest and decorative collar of foulard.

In dressy blouses there are some very rich and unique models. One of "black satin is cut kimono style, with short sleeves, and has a lagoon so long that one wonders it is classed as a blouse. In keeping with its style it is adorned with embroidery in silver and gold, of Japanese inspiration. Col-

ored georgette with trimming of parallel rows of drawn work and embroidered floral designs appears among the elbow-sleeved models for dressy wear. Silk floss as a trimming is as popular as georgette in materials. It has been used to imitate baby lamb fur and proves wonderfully effective on georgette Russian blouses in gray, navy and milkyway color.

Blouses like that pictured, draped to the side, and tied with hanging ends, are assured favorites. Heavy floss, in several rich colors, and unusually placed makes the most effective trimming on them, and pongee khaki-kool or silks of like character or plain satin may be used to make them.

The georgette blouse pictured is one of an always increasing number in which front and back panels are extended below the waistline to simulate a blouse. It is embroidered with silk floss and its edges finished with narrow pipings of satin.

WEATHER CAUSE OF SHORT HONEY CROP ACCORDING TO GREEN BELL

(Continued from Page One)

remarked, from the fact that a more or less continuous covering of snow, incident to a cold winter, not only delays the blossoming of fruit trees, but also prevents that alternate thawing and freezing injurious to wheat and other winter grains.

Many proverbs are based on weather conditions in January, this "January wain, the Lord have mercy."

"If you see grass in January, Lock your granary."

"January blossoms fill no man's cellar."

Here is one on the second month of the year:

"All the months in the year Curse a fair February"

Of the sun Virgil is quoted: "Above the rest, the sun who never lies,"

Foretells the change of weather in the skies."

Doctor Humphreys gives us several beautiful lines from Shakespeare's sky colors, including the red sky in the morning and the red sky in the evening.

But Doctor Humphreys well remarks that in many ways the most interesting of all these proverbs that have to do with red sunrise and red sunset is one which, according to St. Matthew, Christ used in answer to the Pharisee and Sadducees when they asked that He would show them a sign from heaven. "He answered and said unto them, when it is evening, ye say, it will be fair weather, for the sky is red; and in the morning, it will be foul weather today, for the sky is red and lowering. Oh, ye hypocrites, ye can discern the face of the sky, but can ye not discern the signs of the times?"

This red-sky proverb was so ancient that Christ knew that every one who heard Him was familiar with the saying.

Doctor Humphreys accounts in a measure for the red-sky sign by physical explanation of the phenomena.

Green W. Bell, of Bells Landing, who, in addition to being the best managed bee raiser in the upper end of the county, is also a studious observer of weather conditions from year

to year. Mr. Bell has kept a daily record of the weather for the past twenty years and is an authority on the weather of the past, present and future—judging by the following information or semi-prognostication which he gave us while in town yesterday.

Mr. Bell agrees with the quoted observation above "that the sun controls the weather." He asserts that the direction of the winds for the succeeding three months accurately follows the direction of the wind at the exact moment the sun crosses the line at the different seasonal changes.

For instance when the sun crossed the line on September 23d, 1919, at 9:26 p. m., the wind was a little southerly of west which meant that the prevailing winds during the three months ending December 21st will be from the southwest and in consequence we will have very little winter up to December 21st at least.

Mr. Bell's bees made him a little more than 600 pounds of honey during the season just closed, the bees averaging but about ten pounds to the colony, while last year the colony yield approximated 100 pounds each.

As all bee-keepers report the same condition this year, we asked Mr. Bell what the trouble was among the bees and whether he thought the world-wide unrest and strike fever he meant the busy little fellows' busy life.

He said "No, sir; the bees were as busy as ever, but they had no work or very little work this season and were forced to spend their time in idleness. When pressed for his reasons for this observation he again charged it to the wind, but beyond that was unable to go. He said that when the wind is from the northeast or northwest the flowers do not secrete honey and as the winds during April, May and to June 21st were generally from the northeast and from June to September 23d were from the northwest the flowers failed to secrete honey and the busy bee was therefore unable to gather what he couldn't find.

Mr. Bell says this is one of the many unexplainable mysteries of nature, but it always works out that way as he has kept close watch on it for the past ten or fifteen years.

J. W. Oxley has returned from transacting business in New York.

Mr. Margaret Sheeche of Canandaigua is the guest of Mrs. B. J. Sheeche on Nichols street.

Mrs. J. L. Reed and daughters of Philipsburg were shopping in town yesterday.

Mrs. A. G. Gulich is spending a few days with her father in Bigler.

Miss Miriam Werry of Johnstown is the guest of Mrs. John Gordon on Locust street.

Mrs. William Brookes of Atlantic City has returned home after visiting her sister Mrs. Gusie Geppert on Third street.

L. N. Rougeux is spending the week end with relatives in Frenchville.

Miss Emma Hinkle is spending the week-end with friends in Huntingdon.

Miss Helen Ogden has returned home after visiting relatives in Altoona and Uniontown.

Mrs. Paul Gulich of Philipsburg spent yesterday with Mrs. John Appert on Nichols street.

C. P. Glenn who has been visiting his sister Mrs. T. T. Walsh, left today for Yarns City.

M. J. Doves and sons David and Tel left to spend a few days in New York and Albany.

Mrs. Thomas Edwards and son returned to their home in Philadelphia, after visiting the former's parents, Mr. and Mrs. F. X. Shlien on Guilford avenue.

Lex Dunsmore of Philipsburg spent yesterday with friends here.

Mrs. Frank Gilliland and daughter Margaret left today for Williamsport. They will be joined tomorrow by Mr. Gilliland and will visit with relatives for a few days.

Miss Regina Malloy was given a delightful birthday surprise party at her home on Fourth street, Thursday evening. A fine time was had and elegant refreshments enjoyed.

Mrs. Charles Mullen and two children are spending the week-end with friends in Johnsbury.

Mrs. Woodward Hall and daughter are spending few days with relatives in Mahaffey.

Miss Myrtle Bryan left today to spend the week end in Philadelphia.

Mr. P. P. Stude and Mrs. J. L. Daly are spending the week-end with friends in Frenchville.

Alva Brothers has returned home from spending his vacation in Buffalo, N. Y., and Niagara Falls.

David Burk of Cherry Tree spent last evening in town.

Miss Jester Ellenberger has returned from a three months visit to Johnsbury, Pennell, and DuBois.

George Catton of Pittsburgh is spending a few days with his mother Mrs. F. M. Cardon on Cherry street.

Mr. and Mrs. Guy Burger who have been visiting at the home of Frank Gilliland, returned to their home in Sewickley.

Mrs. Ada Gates is visiting relatives and friends in Mahaffey.

Miss Helen Kane of Arcadia was shopping in town yesterday.

Rev. P. J. Sheridan, of Oil City, accompanied by his assistant, Father John Sheridan, of Oil City, and Mr. S. J. Waterworth yesterday.

A new style of goggles specially designed to prevent the automobile driver becoming dazzled has the hand side of each lens colored. When blinding headlights come along the driver has only to turn his head slightly to the left and his eyes are at once protected from the dazzling glare while he still has the clear view of the goggles to keep an eye on the road.

Over a million dollars' worth every year from ancient stones in Clearfield. Nearly 7,000 tons of stone are obtained from the fruit, and from these the chemist extracts two oils, one known as bitter oil of almonds, the other a new substitute for olive oil. A ton of stones produces material worth about \$200.

Bilharz, originally said not be called the "green-table sport" since the early billiard tables were covered with blue cloth and not green.

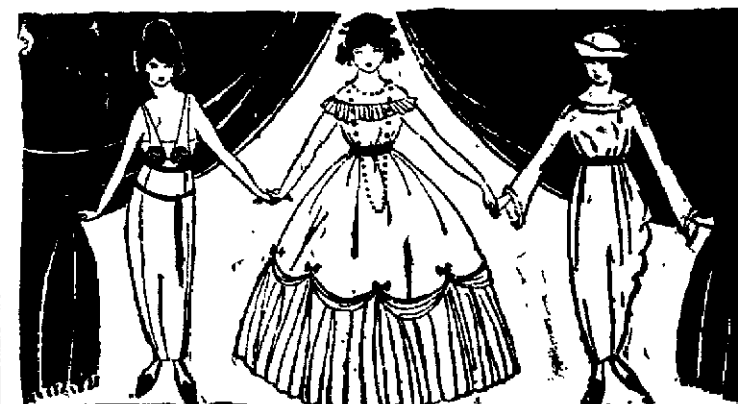

Instances of extraordinary longevity are not always above suspicion. One of them, P. M. who was buried in Westbury, N. Y., was said to have lived 112 years. That is the longest record on record.

LODGES THINK WELL
OF NEW SECURITYMany Orders Investing Funds
in Quick Redeemable Treasury
Saving Certificates.

Among the fraternal organizations in the Third Federal Reserve District which have been investing their lodge funds in the new U. S. Treasury Saving Certificates are the Knights of Malta, Knights of Pythias, Improved Order of Red Men, Patriotic Order Sons of America, Jr. Order United American Mechanics, Foresters of America, and Order of Independent Americans. There are about 3500 lodges in the 60 Pennsylvania, New Jersey and Delaware counties of the Third District and the War Savings Division has been interesting them in the advantages, from the lodge standpoint, of placing their funds in this new government security.

Many letters have been received from officers of lodges endorsing the certificates as the ideal investment for lodges. A trustee of one of the most prominent Knights of Pythias lodges in Pennsylvania said he considers the issuance of the certificates one of the biggest things the War Savings Division has achieved.

"These certificates exactly fit the needs of lodges," said this trustee. "Their absolute safety coupled with high interest rate and speedy redemption privilege make them the most attractive investment I know of for the funds of any organization which requires to have a string to its money so that it may be quickly recalled in case of emergency."

Treasury Savings Certificates are issued in the denominations of \$100 and \$1000. Any sum up to \$1000 can be invested by a lodge in one year. The certificates are being sold in October at the rate of \$84.20 per \$100. If held until January 1, 1924, they will be redeemed at full face value, \$100 or multiples thereof. Should a lodge need its money back at any time, its certificates will be redeemed upon 10 days' notice at full cost price plus 3 per cent interest. The value and interest are guaranteed by the United States Government. They are not subject to market fluctuations.

Certificates are obtainable at post offices and at all incorporated banks and trust companies. The War Savings Division, 1481 Walnut street, Philadelphia, will supply further information upon request.

NEW SAVING PLAN
AIDS WAGE EARNERS

More Than 1400 Government Savings Associations Now Active in the Third Federal District.

More than 1400 Government Savings Associations are now operating in the Pennsylvania, New Jersey and Delaware counties of the Third Federal Reserve District. These associations are located in business and industrial concerns and have a total membership of over 200,000.

The members are regularly saving and investing through the purchase of Government Thrift and Savings Stamps. The largest of these associations has several thousand members and its total investment at a single pay runs from \$3000 to \$10,000.

The Government Savings Association plan is a very simple one. It is designed to make saving an easy and convenient process and for that reason is meeting with great favor among workers. There are no dues, no fines, no meetings, and no record is kept of individual accounts. The ease of saving by the method now introduced goes far to institute thrift as a permanent habit and the returns in various plants show that many workers who previously were very improvident are methodically and regularly putting by considerable sums.

In one small concern eleven men were interested in the plan and it was figured that in six months they were likely to save about \$175. They actually saved more than \$2000 in that time, as much to their own as to others' surprise, and two of them bought homes, using their investment in Government Savings Stamps to make the initial payments.

The War Savings Division, with headquarters at 1481 Walnut street, Philadelphia, is introducing the association plan into practically all leading business and it is meeting with the commendation of both the employers and the employees. Literature relating to the plan and suggestions to promote its introduction in any line of business are obtainable upon request.

NOTICE

Clothing is needed for Clearfield's tuberculosis patients.

All charitably inclined persons will please send this requirement to Mrs. Richard Gilbert, Chairman of the Tuberculosis Committee of the Woman's Club.

OS-37-cb

Wesley Tippet to Gust Wielburg, two lots in Woodward township; consideration, \$800.

NINTIETH DIVISION OPENS SOUTHERN HEADQUARTERS

The following has been sent to us by Carl Roos, of Munson, a member of the valorous 90th division, who believes many other members will be interested in the bulletin.

The 90th Division association was formed by the officers and men of the 90th Division shortly before their return from overseas. The purpose of the association is to perpetuate the name of the 90th Division, its accomplishments and the memory of the men who lost their lives while serving with the division; to assist, every way possible, the families of the men who did not return and to assist all men having trouble with their war risk insurance, securing their bonuses, vocational training, etc.

Headquarters have been opened in the Southwestern Life Building, Dallas, Texas. The secretary of the association, Arthur J. Reinhart, will be in charge of the offices. It is planned to keep on file at the headquarters a

complete record of all men who have served with the division, either in the states or overseas.

HISTORY. A history of the 90th Division, from the date of its organization at Camp Travis, Texas, to the date of its demobilization, with special emphasis on its operations overseas, has been prepared under direction of the division authorities and turned over to the association for publication and distribution. The history is now in the hands of the publishers and should be ready for delivery about November first. It consists of about three hundred pages including about eighty pictures and engravings, maps plans, etc. The history is in narrative form and has been prepared from historical data contained in the war diary, official records and accounts furnished by individual members of the division, and will relate all the salient facts in the life of the 90th division.

The majority of the men who were

with the division at the time it left Germany have subscribed and paid for a copy of the history: approximately sixteen thousand copies having been sold. There will be twenty thousand copies in the first edition. Subscriptions are coming in very rapidly and if any member desires another copy or if you have friends desiring copies, advise them to mail their name and address, together with check or money order for \$1.50—the price of the history—to the secretary at the foregoing address. It is our desire to circulate as many of the histories as possible in order that the public may better understand the accomplishments of our division and of the work and achievements of our officers and men. See that your local newspaper gets this information to that anyone interested may know how to obtain a copy.

REUNION. The 90th Division reunion will be held in Dallas on October 11, at the State Fair grounds.

A meeting will be held in the coliseum one containing 25 actual scenes of the St. Mihiel sector; 25 of the Meuse Argonne sector and 25 taken on different parts of the Western front. Most of them were taken by men serving with the division. The price is \$1.50 per set, postage prepaid.

ASSISTANCE. We are all ready to assist any member of the 90th Division who is having trouble with allotments, bonus, pay or any other question between himself and the government. If you have any troubles tell them to us.

UNIFORMS WILL NOT BE WORN. Register at the coliseum the first thing so that your friends will know you are there and also to get your "TO" badge. Remember that the reunion is to be an annual affair and that we want to make this first one a grand success—so bring your wife, best girl father and mother, all the kids and the dog!

POST CARDS. Anyone desiring sets of actual photographs—post card size—of battle scenes including pictures of plenty of good dutchmen, can secure the same by writing to the as-

sociation. They are in three sets—one containing 25 actual scenes of the St. Mihiel sector; 25 of the Meuse Argonne sector and 25 taken on different parts of the Western front. Most of them were taken by men serving with the division. The price is \$1.50 per set, postage prepaid.

ASSISTANCE. We are all ready to assist any member of the 90th Division who is having trouble with allotments, bonus, pay or any other question between himself and the government. If you have any troubles tell them to us.

The Japanese are now using a stupor as a manure and it is said to give excellent results on rice. An analysis shows the fish to contain nearly five per cent of nitrogen and a small quantity of phosphoric acid.

Eliza McCloskey and Wm. McCloskey to Carl Edward McCloskey, lot in DuBois; consideration, \$1.00.

ANENT FARMERS

The farmers of Pennsylvania are working too many acres and not using their heads enough, according to some statements in the bulletin of the state department of agriculture. "The most of the farmers of Pennsylvania, and the same is likely true of other states," says the bulletin, "are working too many acres and consequently are not doing the work properly and thoroughly." The point is made that too many are content to get one hundred bushels of corn from four acres than from 2 by a change of methods. The farmer, says the bulletin also, must keep in mind the quality of his crops and "advertise in order that the purchasing public may know where to get the best." The bulletin also asserts that the farmers must use their brains as well as their muscles.

see 11 in The Progress

WOULD YOU LET A CHILD STARVE?

If you could see a child fall at your feet, too weak from hunger to stand erect, its great burning eyes brilliant with the fever of hunger and its little emaciated arms outstretched to you in pleading—WHAT WOULD YOU DO?

YOU WOULD FEED IT
THEN DO IT NOW

You do not see that little child, yet you can hear its plea. Its plaintive cry comes across the seas in humble supplication to you for food, lest it die of starvation, for shelter, lest it perish from the cold, for medicine, lest Pestilence claim it.

• There is no argument as to the NEED. Herbert Hoover attests it—Red Cross and United States government agents confirm it—eye witnesses sent to investigate by the Jewish Relief Committees have returned heart broken and brain sick with the horrors that confronted them.

• There is no argument as to the wise administration of the relief funds—every dollar obtained goes to the one end.

• There remains but ONE question.

Will YOU turn away from that dying child, that starving mother, that famishing old man, and deafen your ears to his prayer,

Not in America, thank God.

SAFETY FROM UNDESIRABLES

Immigration has overtaken emigration at the port of New York. The human tide flowing westward from Europe is limited only by the capacity of available passenger accommodations. One vessel this week landed 800 Italian immigrants. Government officials expect an enormous influx of foreigners, but some other authorities insist that the outflow, especially of Italians, will be very large for a long time. This latter opinion is predicted on evidence that the thousands who have gone home during the war period and were kept there by lack of transportation are more than ever eager to take ship now. And this in spite of the fact that the influx noted is reported due to the difficult conditions of existence in Italy. Croatians, Poles and Czecho-Slovaks also are reported to be returning to their native lands in increasing numbers, they believing they will find opportunities greater than in America now that their countries are free.

The immigration noted should be a matter of grave concern to our government and people. Every precaution should be taken to exclude from this land undesirable foreigners and those who come here with no purpose of becoming citizens. For the present, passport regulations, are fairly rigid and make possible the exclusion of a great many who should be barred, but with the ratification of the Peace Treaty the safeguards will be much reduced. Action by Congress to extend the protection which we now have is called for. And steps should be taken to get rid of the aliens already here who have demonstrated their unfitness to remain. We have not seen the full extent of the peril which foreigners devoid of sympathy with American institutions are to us. We have, however, seen enough to put us on our guard. We have been too trusting in the past. There can be no excuse for admitting potential trouble-makers in the future. It will be more difficult to adopt protective measures when the tide of immigration is at flood. Now, when the incoming stream is comparatively small, we should act for our own safety.—Gazette Times.

WILL THE FLU RETURN

Will there be another visitation of the influenza epidemic, is a question which seems to be undecided in the minds of men of medicine and science. Dr. Adolph Koenig, former Allegheny county medical inspector, and other Pittsburgh physicians say that there is little likelihood of a repetition of last year's epidemic.

In stating his opinions as to the return of the influenza epidemic, Colonel George A. Soper, of the Sanitary Corps, U. S. A., writes in "Science."

Nobody can positively answer this question. Influenza commonly sweeps in more than one wave over a country. America experienced an unmistakable but mild wave before the great one of September and October of last year, and since then there have been local disturbances corresponding to fresh outbreaks in many places. In England a new and alarming prevalence has been reported. It would not be surprising if there should be another pandemic in the United States.

The colonel's idea of the most essential things to remember are embodied in the following 12 condensed rules which were prepared in September, recommended by the surgeon general of the army and published by order of the secretary of war to be given all possible publicity:

1. Avoid needless crowding—influenza is a crowd disease.
2. Smother your coughs and sneezes—others do not want the germs which you would throw away.
3. Your nose, not your mouth, was made to breathe through—get the habit.
4. Remember the three C's—clean mouth, clean skin and clean clothes.
5. Try to keep cool when you walk and warm when you ride and sleep.
6. Open the windows—always at home at night! at the office when practicable.

Your Pleasures

What are you getting out of life?

Are your pleasures secured by spending your last dollar?

How quickly we forget the fun and how long we remember the debt.

Why not start a savings account today at The Clearfield Trust Co.

The Clearfield Trust Co.

7. Choose and chew your food well
8. Your fate may be in your own hands—wash your hands before eating.
9. Don't let the waste products of digestion accumulate—drink a glass or two of water on getting up.
10. Don't use a napkin, towel, spoon, fork, glass or cup which has been used by another person and not washed
11. Avoid tight clothes, tight shoes, tight gloves—seek to make nature your ally, not your prisoner
12. When the air is pure breathe all of it you can—breathe deeply.

Boys' dress shoes in button and lace, box toe. Tan or black. An exceptionally fine shoe for **\$2.98 to \$3.48**

NEWS OF OUR NEIGHBORS CURWENSVILLE

Scott Ammerman is off duty at the Crescent Refractories brick yard office, and is enjoying his vacation day visiting a friend at Akron, Ohio.

Those immense elk horns on display in Vaughn's store window attract the attention of all pedestrians who travel that way.

There is not a flag floating from the pole of any of the three school buildings. Surely it is not lack of patriotism, but merely oversight.

The writer of the Curwensville letter received a letter yesterday from George (Shoety) Blair, who now resides at Warren, Ohio, and requests that the Progress correct a false statement, presumably to come from him which was printed in an edition of the Herald a few weeks ago. In commenting on the story he says in part "that he is not sorry he sold his South Side home and moved from Curwensville." It is just the other way around. He is pleased with his new home, as is his wife and children, and that he is making as much money there in a week as he made in Curwensville in a month. He has no intention whatever of coming back.

M. H. B. Thompson is remodeling the second floor of his building, the first floor of which is now occupied by the Express office and plumbing establishment. The improvement is being made to convert the upper rooms into a flat for house keeping, and when completed, will have a kitchen, dining room and several bedrooms, making the place a tidy corner in which to live.

The Sphinx Club are making great preparations for a masquerade dance to be held in the Moose Hall, Curwensville, on Halloween night, October 31st. This will be a very fine affair. The Original 7 piece Sphinx Orchestra will furnish music for the occasion, and there will also be prizes given for the best costume dancers. While this is a masquerade dance, the Club will be glad to welcome those not in costume, also.

Answering the call Tuesday night from Grampian, to assist in putting out the fire, the motor truck made the run in 20 minutes, and in 10 minutes after arrival, had a stream of water and mud on the flames, and in less than 30 minutes, had the fire under control. Some quick work that.

Mr. John Rapp left yesterday for Somerset county, where he expects to find suitable employment.

Bethesda lodge 821, I. O. O. F., installed the following new set of officers last night. Noble Grand, Chas. Hoover; Vice Grand, Chas. Young; Secretary, H. S. Brown; Treasurer, J. A. Dale.

Curwensville's allotment for the Jewish Relief Fund is \$3,000, and committeemen are of the opinion that when the campaign ends the sum will read more than that.

Born, to Mr. and Mrs. James Humphrey, at the home of Ashley McDowell, on Wednesday night, a bouncing boy baby. As this is the first son to arrive in the family, father and mother are most highly pleased.

A cake walk is advertised to take place on Saturday evening in the Catholic Church. Lots of cakes and good music will be the leading features of the occasion.

Mr. Frank Bilger, manager of the A. and P. store, who was so badly burned last Sunday morning by the explosion of a can of kerosene, is at the home of Percy Shafer, and is reported as getting along finely.

Mr. Bender Brenetti, who has been in the army in France for the past sixteen months, returned last evening before returning from France he visited a sister and other relatives in Italy.

Carrie E. and F. B. Howell to Ina Lord, house and lot in Curwensville, consideration, \$1,400.

HAVE YOU PROPERTY FOR SALE?

List it with me at once. I advertise free and do not mention names unless desired by owner of property.

FEMININE HOSIERY

To achieve the right effect in women's apparel, one must have the right hosiery with the right shoes. In other words it is the minor details of a costume, that stamps it as distinctive.

We have just received a shipment of hosiery including every fashionable shade and style, suited to every type of fashionable shoe. These stockings, made of pure silk thread would sell at \$2.50 and over if stock had been purchased at present selling prices, but we were fortunate in securing this stock at former prices, and therefore offer them to our patrons at \$2.00 and \$2.25. Come in white, black, cordovan, grey and covert.

Make your selections early, while the assortment is large.

HAVE COLOR IN CHEEKS

Be Better Looking—Take Olive Tablets

If your skin is yellow—complexion pallid—tongue coated—appetite poor—you have a bad taste in your mouth—a lazy, no-good feeling—you should take Olive Tablets.

Dr. Edwards' Olive Tablets—a substitute for calomel—were prepared by Dr. Edwards after 17 years of study.

Dr. Edwards' Olive Tablets are a purely vegetable compound mixed with olive oil. You will know them by their olive color.

To have a clear, pink skin, bright eyes, no pimples, a feeling of buoyancy like childhood days you must get at the cause. Dr. Edwards' Olive Tablets act on the liver and bowels like calomel—yet have no dangerous after effects.

They start the bile and overcome constipation. Millions of boxes are sold annually at 10c and 25c. Take one or two nightly and note the pleasing results.

Gossip for Tonight's Tea Table

Mrs. Vily Law and Miss Dolly Smith left yesterday to visit with relatives and friends in Niagara Falls, Buffalo, Cleveland and Pittsburgh.

Miss J. A. Bueh, who has been seriously ill with rheumatism, at her home on West Fifth avenue, is recovering nicely.

Miss Esther Robinson left yesterday to spend a few days with friends in Pittsburgh.

Mrs. Howard Piggott has returned from a visit with relatives in Ludlow.

Miss Delia Cunningham, of Oil City, is the guest of her sister, Mrs. S. J. Waterworth on Second street.

Mrs. A. J. Pehelman and daughter Emma of Woodland, were shopping in town yesterday.

Mr. and Mrs. Harry Mann and daughter are one of a group of friends in Gettysburg, N. Y.

A crowd of young people from the West Side Methodist Church held a picnic last evening at the Clearfield Driving Park.

M. and Mrs. Ward Foster and son, at Philadelphia, are visiting Mrs. Foster's parents, Mr. and Mrs. Robert Daugherty, on Fourth street.

Daniel Phillips, of Keenmore, was a business call in town today.

William Smith is spending a few days with his family in Boston, Mass.

Mrs. D. W. Anderson has returned from visiting her daughter, Mrs. Alex. Such, in Huntsgton.

George Treason, manager of the employees of the stores here at a picnic and dance at Long Park last evening.

Miss Saleme Hastings, of Pittsburgh, is visiting her grandparents, Mr. and Mrs. John Hastings, on Cherry street.

Mrs. Alice Watson has returned from a visit with relatives and friends in Mahanoy.

Be Prepared For Influenza

GET THIS OUT

Many medical men say we will probably have another epidemic this fall.

Let us all hope and pray we will not.

But at the same time let us be well prepared.

The flu as it is called usually starts with a cold and tightness in the chest.

If you even suspect there is a chance that you are getting influenza, take a good dose of laxative tea, such as Dr. Carter's K and B Tea or electrolyte and send to your physician.

While you are waiting for the order to be given, you may take a hot and cold.

Run it on freely and never mind if it does feel good and hot, it cannot do any harm in the coldest skin.

But don't stop at throat and chest, get one to rub this enemy of inflammation over your entire back and pecially between the shoulder blades.

This is one of the most sensible remedies you can take against influenza, which often quickly follows the flu and is just what the doctor prescribes.

You can get Dr. Carter's K and B Tea at all drug stores. It is only for a few cents and will keep you safe.

Remember to take it at once if you feel the first signs of influenza, such as sore throat, runny nose, and aches and pains.

WILSON MUST STAY IN BED SEVERAL DAYS: DECREE OF HIS PHYSICIANS

LATE AFTERNOON BULLETIN DISPELS HOPE THAT PRESIDENT WOULD BE ABLE TO BE AT WORK SOON

REST CURE TO BE CONTINUED

WASHINGTON, Oct. 11—President Wilson will be forced to remain in bed for an extensive period it was announced at the White House this afternoon. Dr. Grayson made this announcement in his regular daily bulletin on the President's condition.

The bulletin said "The President shows signs of continued improvement but his condition is such as to necessitate his remaining in bed for an extended period." This was by Dr. Grayson, Dr. Francis Dercum, Dr. Sterlin Buffin and Rear Admiral Stipp.

This announcement was delayed until 12:45 p. m. more than two hours later than the usual time of announcement.

The bulletin was issued after an extensive conference of the President's physicians. Neither Grayson nor Dercum, who is a nerve specialist, saw newspaper men after the conference and no additional information was forthcoming. Today's statement came as a surprise inasmuch as the impression has been created that Wilson was so improved he might be able to leave his bed soon and resume his automobile rides. During the last 48 hours he has been taking slight part in affairs of state, getting information through Grayson and Chairman Lane of the national industrial conference. Grayson said he was informed Wilson would be able to make an appearance before that body before this session ended.

COL. HOUSE VERY ILL

WASHINGTON, Oct. 11—Col. E. M. House, member of the American peace commission has been taken ill while on his homeward voyage on the steamship Northern Pacific, according to wireless messages received today by the State Department. There were no details but it was not believed his illness was serious. House is due to arrive at New York tomorrow.

LIEUT. MAYNARD HOPES TO FINISH CROSS NATION AERIAL DERBY TODAY

SALT LAKE CITY, UTAH, Oct. 11—Lieut. E. W. Maynard, leader in the aerial derby, hopes to complete his coast to coast flight today. He landed here from Salt Lake, Utah after a half day of flying from Cheyenne. Lieut. A. C. Grayson of the plane 4, spent the night at Ralling, Wyo.

BASLE MOUNTAIN, NEV., Oct. 11—Lieut. B. W. Maynard west bound left Basle Mountain for Reno at 8:17 a. m. today.

CHICAGO, Oct. 11—Twenty-eight aerial derby racers were expected to land in Chicago today. Last night all the flyers had cleared the field here. Three had gone east, five west and the others had been held at Ryan.

AMERICANIZATION IS MOST NEEDED IN STEEL DISTRICT, SAYS KENYON

By RAYMOND CLAPPER

United Press Staff Correspondent

PITTSBURGH, Oct. 11—Foreign labor must be Americanized. This is the conclusion as announced by Senator Kenyon today as he and the other Senators investigated conditions in the Pittsburgh steel district. Legislation which will enable foreigners to be Americanized will be started at once when the committee returns to Washington. Senator Kenyon said today that the Senators were astounded by the information of foreigners in the steel district. In the district where they visited, the foreigners could not talk English and could scarcely understand. Interpreters had to be obtained before the Senators could converse with the strikers. "We should use every good influence to educate these men. This is our one hope. I have been after ammunition on this visit and I have certainly gotten it in abundance," Senator Pittsburgh steel district. Legislation which will enable foreigners Kenyon said. He plans a determined fight in Congress based on observation here. Both today and tomorrow will be spent hearing union and non-union employes of the steel companies.

ENGLAND HAS RATIFIED TREATY

LONDON, Oct. 11—King George ratified the peace treaty last night completing ratification by Great Britain. A special messenger bearing the document was dispatched to Paris.

JOHN W. SMITH DIED LAST NIGHT

John W. Smith passed away at his home on Second street last night at 9:30 as the result of a long illness caused by locomotor ataxia. The deceased was the eldest son of the late Mr. and Mrs. George W. Smith and conducted the well known Smith's mill in Clearfield for many years. He was born at Port Matilda, Centre county, fifty-nine years ago and when a boy removed with the family to Curwensville, where he resided until about 1884 when they came to Clearfield and Mr. Smith built his mill on Leavy avenue. At the death of his father, in company with his brother, John W. succeeded to the business and had since conducted same in a highly successful manner.

John W. Smith was a good business man, a good citizen; genial and companionable he possessed a host of warm friends who will sincerely mourn his taking away. He never married and is survived by one sister, Mrs. Oscar Mitchell, of this place.

The funeral will be held from his late home Monday afternoon at 2 o'clock. Rev. Dr. E. C. Reeve, of the Presbyterian church, officiating. Interment in family plot in Hillcrest cemetery.

LARGE CROWD SEES LOCAL TALENT AT Y. M. C. A.

A large crowd enjoyed a good local talent entertainment by our own boys and girls.

The association secured autos and brought the children from the Children's Home who opened the entertainment with the singing of America. The Secretary announced that he would give three tickets to the movies to the three boys or girls having the most entertainment. Music, song, and gymnastics stunts were the entertainments. The judges awarded the contest to John Thoms, Charles Hile, and Edwin Brown.

Miss Evelyn Smith played several good selections on the piano while the audience sang popular songs. There will be a free entertainment every Friday evening at 8 o'clock.

MEDIX RUN IS NOW RAPIDLY DISAPPEARING

The once prosperous town of Medix Run, Elk county, will soon be but a memory, for the only industry in the place now, the Mosser tannery, is rapidly being dismantled. Time was when Medix Run not only had the tannery but also several sawmills in the vicinity, in the heyday of its youth. The sawmills went first and it was not until this summer that it was decided to close the tannery, the reason not being known, but as there is no more back in the immediate vicinity, and as it is out of the beaten tracks of commerce, that likely caused the suspension.

HUNTERS WILL BE PLENTY

The hunting season for ruffed grouse or pheasants and squirrels, does not open until October 20th yet County Treasurer Kline up to the close of business this evening will have issued over 2600 hunter's licenses. There were 7200 licenses issued in Clearfield county last year and from the way the applications are coming in that number will be exceeded this year.

BIRTHDAY PARTY

Misses Helen Louise and Jane Leonardson and Master Billie Leonardson entertained about seventy of their friends this afternoon from three to five at their home on Second street, tomorrow being Helen Louise's seventh birthday.

Ball games were first played by the ancient Greeks and Romans, and consisted merely of throwing and catching the ball. This was found to be an excellent method of strengthening the figure and keeping the body healthy.

The average number of microbes in the teaspoonful of milk kept under the most sanitary conditions is 6,000,000. Some of them are probably doing useful work, whilst others are decidedly pernicious.

PROMOTER OF BRICK PLANT IS ARRESTED

Cooper Township Residents Make Charges After Putting \$10,000 Each in Stock

HELD IN BAIL FOR COURT

Thomas M. Wilson, a promoter, who is alleged to have come from Pittsburgh into Clearfield several months ago and began the promotion of a fire brick plant at Winburne, this county, was arrested last night at Punxsutawney by Constable Thos. Barr of Winburne, charged with false pretense on a warrant issued by Squire F. C. Chorpenn on three separate informations made by Dr. W. P. Thorpe, Edward T. Carlson and Andrew J. Peterson, all of Cooper township.

The facts or alleged facts as gathered here following a hearing held before Squire Chorpenn this morning are about as follows:—Several months ago Promoter Wilson appeared in the Cooper township county and after prospecting and leasing 700 acres of fire clay and 400 acres of coal from T. L. Snyder of Clearfield, proceeded to organize the Winburne Fire Brick Company and announced that a large fire brick manufacturing plant would be erected by the company along Moshannon creek just outside of the village of Winburne.

Thus far the brick yard has not developed entirely to suit the stockholders and an accumulation of this disquietude resulted in the promoter's arrest.

Wilson is charged with false pretense in the information made and each prosecutor places the amount of money involved at \$10,000.

It is alleged by the prosecutors that instead of taking the lease for the coal and clay lands in the name of the Winburne Fire Brick Company, thus making those holdings the common property of all the stockholders, Wilson had leased made out to himself individually without the necessary or any transfer clause.

Believing that matters concerning the brick company were not as alleged by Wilson, the stockholders pooled their issues and after employing A. H.

ARREST ALLEGED SHOOTER OF BEE TREE CUTTER

This is not a very good year for honey and accordingly when a fellow has any honey or his eye on some he guards it jealously and naturally gets real peeved if some son-of-a-gun comes along to take it from him. At least that is the conclusion arrived at by Newton Buzzard and some of his Falls Creek friends following recent developments.

During the night of September 28th last Buzzard headed a party of friends to the vicinity of London mine just outside of DuBois, where they cut a bee tree. The party was engaged in robbing the tree of its store of sweets when a gun shot was heard and a bullet lodged in Buzzard's shoulder.

Honey-gathering unconsciously stopped while Buzzard's companions conveyed him to the DuBois hospital for medical aid. Friday morning Buzzard hailed Samuel Sollada before Squire J. J. Schell at Falls Creek and charged him with shooting him and stealing the honey unearthed by the party after the tree had been cut down and while he and his friends were on the way to the hospital.

It is said that a shirt belonging to one of the party and some of the honey was found at Sollada's home, close to the scene of the shooting and the Squire held Sollada to answer at the next session of the Clearfield county quarter sessions court.

Woodward, Miller & Hartswick, and A. M. Liveright, Esqs., made the move which resulted in the promoter's arrest.

Wilson was in Clearfield yesterday and left here for Pittsburgh. Constable Barr followed him to Punxsutawney by automobile and when he reached that place found his man at the B. & P. station with his ticket for Pittsburgh purchased and in his pocket. They left Punxsutawney for Clearfield at 1:30 o'clock this morning.

Squire Chorpenn held Wilson for court, asking \$2000 bail on each charge. Hazard A. Murray, Esq., represented Wilson at the hearing.

Wilson and his attorney have been busy all day trying to arrange for the \$6000 bond to keep him out of jail but up to the time of our going to press had failed to complete the negotiations, and Constable Barr was camped on his trail waiting for results.

ALTOONA, TYRONE AND HOLLIDAYSBURG SHOPS IDLE

ALTOONA, Oct. 11—The Pennsylvania railroad shops in this city, Tyrone and Hollidaysburg are standing still this morning. Practically every man of the 15,000 employed here is out on strike. Traffic is badly crippled as the steep mountains make it unsafe to send out trains which are not thoroughly inspected. There is not the slightest sign of disorder. Men remained quiet at home.

KING AND QUEEN OF BELGIUM IN OILSKINS EXPLORE NIAGARA FALLS—This is the most informal photograph taken of the King and Queen of Belgium since their arrival in this country. The King and Queen donned oilskins and they covered the entire area around Niagara. When the King was dressed, the attendant who was helping him announced: "All right, King, your ready," and his Majesty smiled.

NO HOUSE TO HOUSE CANVASS BEING MADE

RELIEF COMMITTEE DESIGNATES STORES THROUGHOUT CITY WHERE CONTRIBUTION MAY BE MADE

CAMPAIGN MAY BE LENGTHENED

The committee in charge of the Jewish War Relief campaign in Clearfield are much pleased over the way our people are responding in these latter hours of the drive, while County Chairman Kerr says his reports from throughout the district indicate that the quota will no doubt be reached if the final day's contributions stand up to expectations.

It has not been the purpose in this drive to make a house to house campaign, as was the case with all similar drives, and no doubt many people have been waiting at their homes prepared to greet the solicitors substantially when they call. In order that this apparent lapse may be supplied and all be given the opportunity to contribute toward this extremely worthy charity and lifesaving movement, the committee has arranged central points in the different sections of town where these contributions may be made and proper receipts and credit given.

Down in the Fourth ward contributions may be turned in to Overly's and Gilliland Bros.' stores. On the West Side similar arrangements have been made and contributors may leave their money at the stores of Wm. Boyce & Son and Workman's store. In the town proper contributions may be left at Shapiro's, Mirkin's and Stewart's Drug store.

This should give everybody a chance to contribute and no humane person able to do so should fail to at least do his or her bit in this, the last and most pressing of all war relief work. "Cast thy bread upon the waters," and remember the reward of even "a cup of water in His name."

All of the industrial plants in Clearfield have been visited but thus far the solicitors have reported from but two. These two were the Riverview plant of the Clearfield Brick Manufacturing company and the Elk Tanning company's local plant. At each the contributions averaged a little more than \$2.00 per man which is certainly a fine showing and will mean a big swelling of the fund if all the different works about town do as well.

Chairman Kerr's reports up to noon today show that the campaign must be continued to October 15th at least if we are to realize our full quota, as in a number of the districts the drive was allowed to lag the forepart of the week.

With that end in view the following telegram was sent to each local committee chairman:

Clearfield, Pa., Oct. 11, 1919
Dear Sir: Reports received indicate necessity of continuing campaign to 15th. Suggest you call meeting of your workers for Sunday and outline intensive campaign for next three days.

FRED B. KERR
County Chairman

WEATHER CAUSE OF SHORT HONEY CROP ACCORDING TO GREEN BELL

Nearly all our home made weather prophets are predicting a mild winter this year and are digging up all the old-line weather proverbs to prove their prognostications. But the United States weather bureau is getting its long-range weather system down to an exact science and the weather man continues to "guess" with added accuracy each season.

Meteorology as an applied science is still in its infancy but W. J. Humphreys, Ph. D., professor of meteorological physics, United States weather bureau, is one of the foremost men in his profession, and is doing work of inestimable value to commerce and agriculture.

Time was when the goosebone prophet was our sole guide in interpreting the signs of the sky. Many were the quaint rhymes he made in foretelling the seasons and predicting in his crude way what sort of weather might be expected on the morrow.

With the government observer the forecasts are far from guesswork but with the advance of meteorology the time will come when the weather forecaster will be next to infallible.

In the meantime the government has published in pamphlet form Doctor Humphreys' entertaining and instructive folk-lore article entitled "Some Weather Proverbs and Their Justification." He begins by quoting from King Alfred:

"So it falls that all men are With fine weather happier far." This thousand-year-old observation, says Doctor Humphreys, by England's wise ruler recognizes the fact that

the weather makes a great difference in the way we feel about our work and that, accordingly, it is no wonder that men when the wind is in the northwest.

Regarding his landy, Doctor Humphreys says a naturally every one asks "What of the coming season?" And especially is this an important question for the farmer, for correct answer to it would tell him what crops to plant and when; whether upon hill or lowland, in light or heavy soil, and how best to cultivate them—vitamins, every one, for his success. But whatever we may hope ultimately to accomplish, reasonable forecasting today is beyond the pale of scientific meteorology, though proverbial meteorology is full of it. However, a few of the reasonable proverbs that deal with our climate rather than types of weather are rationally founded. Among them are:

"First year
"First year
"Year of snow
"Year will grow."
Or in still another form:
"A year of snow, a year of plenty."
That these and similar statements commonly are true is evident, it is (Continued on Page 2)

Sending a Senate committee to Pittsburgh for two or three days to find the cause and prescribe a remedy for the industrial war there is just about as sensible as sending a bunch of Pennsylvanians to North Dakota to mediate in a wheat producing trouble or into Texas to adjust a cow puncher dispute. Those senators who are at Pittsburgh come from Iowa, Tennessee, South Dakota, Colorado and Massachusetts and we venture to say that while many of them are good men in their line none of them would know a steel works from a bank robbery.

AMENDMENT BY JOHNSON IS CERTAIN TO PASS

The adoption of the Johnson amendment to the peace treaty by a majority of two votes was claimed today by Republican leaders in the Senate after a careful canvass of the situation had been made. The amendment, if adopted, would give the United States the same number of votes as the British empire in the League of Nations.

It is asserted that all but four of the Republican senators will vote for the amendment. Their vote offset by four Democrats—Reed, of Missouri; Gore, of Oklahoma; Walsh, of Massachusetts, and Shields of Tennessee. The Republicans who will refuse to support the amendments are: McCumber, of North Dakota; Nelson, of Minnesota; McNary, of Oregon, and Colt, of Rhode Island.

TEST OF 2.75 PER CENT. BEER MADE BY PSYCHOLOGIST

There are two persons in the United States who know whether 2.75 beer is intoxicating and, if it is, just how potent it is in the befuddlement of the drinkers' mentality.

The persons with this exact knowledge are Prof. Hollingsworth and Woodward, of the Department of Psychology, Columbia university, who have just completed a series of tests upon six Columbia students. Their findings are to be used as evidence in the injunction proceedings of the Jacob Hoffman Brewing Company in the U. S. district court to prevent all persons from interfering with the manufacture of 2.75 beer.

The professors refuse to announce as yet what they have learned, but the men who underwent the test are not so reticent. They declare they have been as sober as deacons thruout.

THE PRESIDENT'S HEALTH

Though the recovery has been slow and the bulletins so brief and meaningless that we do not have a very good understanding of the true nature of the condition of the President it is gratifying to note that for the past several days there has been encouragement in the bulletins put out by his attending physicians. The continued illness of Mr. Wilson will materially affect the welfare of the country and have some bearing on the outcome of the league of nations and treaty controversy. This would be unfortunate. Whether we accept or reject the treaty or whether we take it whole or in delectable portions is not of so much importance as to have it disposed of and out of the way.

BACKWARD OR FORWARD—WHICH?

After having been abolished for practically two years, death punishment is again in vogue in Missouri, effective yesterday. At the last session of the Legislature a bill restoring capital punishment for murder was passed.

Despite much agitation against the passage of the bill it was passed by the solons, who believed it would aid in the prevention of crime.

Experienced In Service

Organized in 1865, the service of the County National Bank to the people of Clearfield County has extended over a period of more than half a Century.

That it has served its customers well is attested by the fact that they have entrusted to its care more than \$4,000,000.00 of their money.

You are assured of the best of banking service if you do business with the County National.

The officers will be glad of an opportunity to talk it over with you.

The Essex Is With Us

We Will Sell This New Light Weight Quality Car. Our Full Endorsement is Added to All That Everyone Says for it

Come and Ride In It

When the Essex made its first appearance we in common with other dealers were a bit skeptical.

Curiosity led us to take a ride in the Essex. That was enough. The way the Essex rode over rough roads and pavements was amazing to us with our accustomed idea of light car riding qualities.

But when the Essex started to climb hills our admiration was finally and completely won. It was not necessary to show us how quickly the Essex accelerated or how easily it answered every touch of the wheel. It was not necessary for the demonstrator to say a word. The Essex had us at its feet.

The beauty of the Essex design and the trimness of its lines only added to our enthusiasm. In

every respect the Essex was the equal of cars many times its cost.

So we decided to get the Essex representation if it were possible. It was not an easy task. The quick popularity of the Essex led other dealers to also want to sell the Essex. The Essex people chose only those dealers who meet the highest standards. We had to show our qualifications. At last we received word that we were to have the Essex for this territory.

An Essex is now at our store. We have a demonstrating car. Come, see, and ride in it. You will be just as enthusiastic about this new type fine car as we were. It combines every advantage of light car economy and flexibility with large car comfort and endurance. Be sure and ride in it.

Important business that will be of interest to the members will be transacted at the next regular session of the Aerie, Wednesday evening, October 15th, 1919. There will also be an election of a trustee to fill an unexpired term.

E. J. SWALES, W. P. J. J. NOLL, Secretary 011-31e.

LUTHERAN RALLY DAY

Rally Day services will be held at the Lutheran Sunday school tomorrow morning at 9:15. The program will consist of inspiring addresses and special music. We extend a cordial welcome to all.

SEVENTH BIRTHDAY

Blay Connelly, entertained a bunch of friends at his home on Cherry street last evening in celebration of his seventh birthday.

CHINESE BECOME SOCIAL PIONEERS

Men and Women Form Good Fellowship Club Together Under Y. W. C. A. Leadership.

The Good Fellowship Club has made its appearance in society in Hangchow, China.

It began with the desire of a progressive young Chinese doctor to give his compatriots, especially the Christians, some healthful form of social intercourse.

Channels for a good, clean, social life among Chinese people are very limited. Until recently becoming a Christian often meant cutting oneself off from one's friends and relatives, also from feast days and festivals. As for joint meetings of men and women—well, such a thing was never heard of in decent society.

The young doctor's plan of having a club where men and their wives might come together to enjoy a good time with each other was discouraged and snuffed out. However, a few people agreed to be pioneers in the cause of social intercourse, and Y. W. C. A. secretaries agreed to help make the club a success.

At first the meetings of the club were laughed at by outsiders and the whole affair considered a joke. However, the members kept on meeting, first at one house and then at another. Soon the men got over the feeling of strangeness at starting out with their wives on Tuesday evening for a friend's home. The women began to enjoy the outing and to take part in the discussions—an intelligent part, too—much to the surprise of their husbands.

The membership grew. The club's fame began to spread. At first the discussions of the club were conducted in English. Soon it became necessary for them to be carried on in Chinese so that more of the women could understand and take part. Many of the scoffers began to apply for admission. The members began indulging in much friendly chaffing and occasionally forgot their dignity to play jokes on one another. Finally it became so large that it had to be divided into two sections, which met separately three Tuesday evenings in the month and on the fourth Tuesday met together for a joint session, with a special program.

Students just returned from American and German colleges, an old Buddhist scholar who is particularly interested in the discussion on Buddhism and Christianity, merchants, railroad and government officials compose the men's side of the room. The women are still a bit shy about talking in front of so many people, but many of them show signs of great executive ability and power of leadership. They are all well poised, clear thinking individuals, who will have a great influence on China's future. They discuss among themselves group meetings in their various churches, the lack of amusements for Chinese women, social service work, subscription lists for the orphanage, cake making, types of stoves, baby diets, the latest engagement and other topics such as one would hear discussed by a group of women gathered together any place in America.

The social part of the evening is given over to games, which at first astounded the sober Chinese gentlemen, but which they take up with great zest after the first evening. And their wives enjoy it just as greatly.

Real American pioneers are the latest thing which the club has tried, and they are a great success. A Christmas play is being planned now.

"The dove of peace is a patient old bird."

Aviation still has its dangers, its mishaps and its tragedies.

Some fellows can analyze an election result to prove anything.

One thing favorable to a hoe and a rake—neither needs gasoline nor oil.

The ex-crown prince declares he is not an idiot. But how can he prove it?

GOLD MEDAL HAARLEM OIL

The National Remedy of Holland for centuries and endorsed by Queen Wilhelmina. At all druggists, through sales.

Look for the name Gold Medal on every box and accept no imitation.

"Cakes and Beer, and Washing Here"

Before a ramshackle house in a little New England village there used to hang this sign:

"Hiram, the widow's son, I hope,
"Can furnish customers with soap,
"Such as will make the washing day
"Pass off as pleasant, e'en as May,
"Cakes, and beer, and washing here."

Hiram had the right idea. He knew that there were people who wanted what he had to sell. The difference between Hiram and the modern advertiser is that the former had to trust to somebody passing to see his sign. He could not bring his sign to everybody.

The modern advertiser with something to sell that he feels you want, saves you the trouble of going to his place to see about it. Readers of advertisements visit all the advertisers at a single sitting.

This is a service that those who advertise are rendering you, just as the clerks they hire, the deliveries they make, are service. They are saving your time, energy and money, by bringing their establishments to you through the advertisements.

Read the advertisements with this thought in mind.

WHAT BOYS CAN BE

WHAT GIRLS CAN BE

United States Consul

By R. H. Alexander

"Uncle Bob, what is a United States Consul? You have studied Political Science and were overseas in the A. E. F. You ought to know."

"Well, Skip, a consul is the representative of the government in a city or district of a foreign country."

"What is his job?"

"He takes care of the interests of all Americans who may be in his district, whether it is helping them out of trouble, or assisting them in traveling about. By trying to stimulate trade, he promotes a friendly feeling between the United States and the country he is in. He reports to our government the crops and products of his district. He suggests articles made in America which might find a market there. There are only a few of his duties."

"How can a fellow be a consul?"

"They are chosen by civil service examinations. To pass the exam you must know foreign languages, especially French and Spanish; commercial and marine law, geography, economics, general history, arithmetic, international law, and commerce. You can get all of them in any good college."

"If you pass the exam successfully you will probably be started as a vice-consul in some small district, or as a consular assistant in a larger one. Later, if you produce the goods, you might be made a consul or a consul general."

"All your life you must be in a foreign country. If you like to travel and want to see other countries, here is your chance."

"I have been looking this up a bit myself lately and I am sending for Bulletin No. 37, 1919, Bureau of Education, Department of the Interior, Washington, D. C. It is a report of a conference on the subject and ought to give us some information. We will also apply for information to the Consular Bureau, Department of State, Washington, D. C."

(Next week: "Employment Manager.")

SPORTING NOTES
OF THE SEASON

The athletic show at the Park last evening attracted a pretty fair-sized crowd regardless of the downpour of rain. The program consisted of five different events, the "big time" being the wrestling match between Leslie Roberts, the unbeaten Boardman whirlwind and Charles Platts, of Maine. The preliminaries were carried thru without a hitch but the main bout ended in a fiasco after about 25 minutes of as pretty a wrestling match as has been seen here in a long time.

Roberts and Platts proved to be real rivals and went to the mat for blood from start to finish. They gave a pretty exhibition of fast mat work for about twenty minutes. Roberts allowing Platts to do all the work. The husky Greek exhibited all his tricks and skill in trying to down the wiry son of "Bloody Knox" but to no avail. The man from Maine would secure his favorite hold and start in to pin the shoulders of his adversary to the mat, but just as he expected to realize on his strength and skill Roberts would squirm out of his clutches and make the other fellow writhe and squirm to escape the Roberts famous head hold.

Roberts started after his man in the last five minutes and only Platts' squirming off the mat and through the ropes saved him by the narrowest margin from two falls. Platts saw what was bound to come and started in to rough it up a little. This did not suit the spectators who desired clean wrestling and the best man winner, and they voiced their protests. Referee Bill Gardner warned Platts and when he offended again and attempted to hunt Roberts with his head the referee disqualified him and gave the match to Roberts.

The first preliminary was a wrestling bout between the two Boardman midgeets, Kroski and Petroia, and was won by the latter in five minutes.

Meise and "Whiffletree" then went on for a five minute wrestling match and put up a furious contest for a draw.

At this juncture announcement was

made of the McCoy-Wolgast ten round boxing contest at the Park next Wednesday evening and young McCoy who is training here, was introduced and gave an exhibition of his training, skipping the rope, shadow boxing and sparring one round with each of four local scrappers. McCoy was put thru his paces in rapid style and demonstrated that he is some hand in an eighteen foot ring.

The battle royal brought seven local lads into the ring and they hammered each other to the great amusement of the spectators. "Foggy" Jordan, welterweight champion of Mineral Springs, was one of the contestants, and as all hands piled into Jordan he was given a very hot reception. He put up a whirlwind battle for ten minutes but had to succumb to the odds against him. Ray James was the winner of the bout as he proved to be the best stayer.

The main bout was a disappointment in that it did not go to a finish, but Clearfield fans demand clean sport, regardless of everything else, and the action of Referee Gardner was generally commended.

During the evening Editor Stewart of The Progress made an appeal for the Jewish War Relief, and at its conclusion Collectors A. D. Bigler, Geo. E. Zerkoff, C. T. Kurtz, and A. E. Leitinger circulated thru the crowd and secured a total of \$36. Following the ending of the bout and the disqualifying of Platts his share of the proceeds, 25 per cent of the gross, was also donated to the relief fund and as a result the local Jewish War Relief fund was enriched \$34.37 or \$70.37 for the evening.

Clearfield boxing fans will be given a rare treat on Wednesday evening, October 15th, when Johnny Wolgast, of Cadillac, Michigan, and middle-weight champion of that state, and Young McCoy, the Altoona aspirant for middle-weight honors, meet in the Exposition Building at the Clearfield Driving Park.

Wolgast is a brother of former champion Ad Wolgast and has met

and defeated some of the best middle-weights in the country. He has to his credit bouts with such topnotchers as Joe Borrell, Johnny Howard, Larry Williams, Jack McCarron, Jackey Clarke and a host of others.

Wolgast will come to Clearfield Wednesday morning in the pink of condition for this bout and McCoy will find he has no cinch when he goes into the ring with the white boy.

McCoy is a comer and this bout promises to be the best and fastest ever staged in this section. The heat will be strictly on the level and the best man should win.

Manager A. A. Delozier of Altoona, has charge of Wolgast's interests, while "Tunk" Edwards is representing McCoy.

It is expected that the winner of this bout will be signed up to meet like Griffin in a few weeks.

CHICAGO, Oct. 11.—The players on the Cincinnati team by annexing the last contest and thereby capturing the series, will receive \$117,257.60, which divided into 22 1-2 shares will net each share \$5,207.01.

The White Sox will draw down \$78,104.70 and each of the 21 players will receive \$3,724.36.

The National Commission obtained \$72,241.40, or one-tenth of the total receipts, or \$722,414 taken in, exclusive of war tax on all eight games.

The total for eight games follows:

Attendance 2336,926

Receipts (exclusive of war tax) \$722,414.00

Players' share 210,340.70

Clubs' share 339,822.90

Commission's share 72,241.40

Total for Cincinnati Nationals 117,157.60

Each Red player 5,207.01

Total for Chicago Americans 78,104.70

Each player (24 shares) 2,254.36

Second teams of leagues New York Nationals and Cleveland Americans each 19,526.21

Third teams of leagues (Chicago Nationals and New York Americans) each 13,017.45

While there are 24 players on the Reds' team, three were allotted only a half share by a vote of the entire team, thereby cutting the total shares to 22 1-2.

GRAMPIAN FIRE AS SEEN BY A MAN ON THE JOB

Curwensville Fire Company deserves a good bit of praise for the part they took in the fire Wednesday night. Their quick run and the hard way they had of getting water here made their efforts all the more appreciated. But it is all a mistake about them getting the fire under control, for the bucket brigade—a big part of them girls and women—had the fire under control when the Curwensville fire truck reached here. The Curwensville writer was not on the ground or was misinformed as to the truth.

Campan people are very thankful for the fire company's quick response and good work here. But don't forget the ladies—when a big crowd of men were standing around doing nothing. Where is woman suffrage?

FEMININE HOSIERY

To achieve the right effect in women's apparel, one must have the right hosiery with the right shoes. In other words it is the minor details of a costume, that stamps it as distinctive.

We have just received a shipment of hosiery including every fashionable shade and style, suited to every type of fashionable shoe. These stockings, made of pure silk thread would sell at \$2.50 and over if stock had been purchased at present selling prices, but we were fortunate in securing this stock at former prices, and therefore offer them to our patrons at \$2.00 and \$2.25. Come in white, black, cordovan, grey and covert.

Make your selections early, while the assortment is large.

Blouses Greet the New Season

We are to have a variety of new and unique styles in blouses this fall. Already the advance models have passed in review and manufacturers are preparing still others to follow. These will show modifications and adaptations of the styles already presented and of the wholly new forms of trimmings that have been brought out. American producers, now in competition with Europe for the trade of the world, aspire to making the American blouse pre-eminent, like the American shoe, in style and as good as the best in material. Therefore we expect, with good reason, blouses that will accomplish the utmost that designers can do in a variety of styles.

Tailored blouses are shown in flesh, white, navy and black satin and with high necks and long sleeves. Fine tucks in groups that form stripes prove to be appropriate and most popular for trimming. The directive influence appears in tailored models having collars and frills of that period. Georgette and foulard are combined in other tailored blouses, the plain georgette forming the body and sleeves, with cuffs, vest and directive collar of foulard.

In dressy blouses there are some very rich and unique models. One of "black satin is cut kimono style, with short sleeves, and has a lagoon so long that one wonders it is classed as a blouse. In keeping with its style it is adorned with embroidery in silver and gold, of Japanese inspiration. Col-

Novel Jardinere.

Purchase a large size bean pot in the shape of a flower pot with wide rim. They cost about 12 cents. Now use a dark green glossy paint to cover it. When dry dip a small brush in washable gold paint and draw a pretty design around the rim and you have a handsome container for a fern.

ored georgette with trimming of parallel rows of drawn work and embroidered floral designs appears among the elbow-sleeved models for dressy wear. Silk floss as a trimming is as popular as georgette in materials. It has been used to imitate baby lamb fur and proves wonderfully effective on georgette Russian blouses in gray, navy and milkyway color.

Blouses like that pictured, draped to the side, and tied with hanging ends, are assured favorites. Heavy floss, in several rich colors, and unusually placed makes the most effective trimming on them, and pongee khaki-kool or silks of like character or plain satin may be used to make them.

The georgette blouse pictured is one of an always increasing number in which front and back panels are extended below the waistline to simulate a blouse. It is embroidered with silk floss and its edges finished with narrow pipings of satin.

Novel Jardinere.

Purchase a large size bean pot in the shape of a flower pot with wide rim. They cost about 12 cents. Now use a dark green glossy paint to cover it. When dry dip a small brush in washable gold paint and draw a pretty design around the rim and you have a handsome container for a fern.

Julie Bottanelli

FOR MEN WHO WORK HARD

Factory workers, railroad men, farmers, miners, mill employees and all men who work at hard, straining physical labor are more or less subject to kidney trouble. Nature gives warning signals by frequent lameness, stiff joints, sore muscles, backache and rheumatic pains. J.G. Wolf, Green Bay Wis., writes: "Foley Kidney Pills relieved me of a severe backache, that had bothered me for several months. A few bottles fixed me up in good shape." Sold everywhere.

ACHES AND PAINS SLOAN'S GETS 'EM!

Famous pain and ache Liniment, kept handy, brings gratifying relief

RHEUMATIC twinges ease up soon. So do stiff joints, lame back, neuralgia, overtaxed muscles, and those pains from weather exposure, too—they don't fight long against the counter-irritant Sloan's Liniment produces.

Keep this old family friend handy for instant use—a little penetrates without rubbing, leaving no skin stains, rashes, or clogged pores. You ought to keep a bottle handy always.

All druggists. Three sizes—35c., 70c., \$1.00.

KEYSTONE
The ICE CREAM THAT EVERYONE LIKES

The Round Oak Pipeless Furnace Is a Clean System

This patented, improved, bolted and deep-jointed construction and its heavy castings, mean no dust or dirt in your home.

We are positive that it is the best built, most efficient, durable and satisfactory pipeless heating system on the market. It is worth every cent, and more, you invest in its purchase. Its saving in fuel alone pays a liberal interest on the investment.

WEATHER CAUSE OF SHORT HONEY CROP ACCORDING TO GREEN BELL

(Continued from Page One)

remarked, from the fact that a more or less continuous covering of snow, incident to a cold winter, not only delays the blossoming of fruit trees, but also prevents that alternate thawing and freezing, so injurious to wheat and other winter grains.

Many proverbs are based on weather conditions in January, this "January warm, the Lord have mercy."

"If you see grass in January, Lock your granary."

"January blossoms fill no man's cellar."

Here is one on the second month of the year:

"All the months in the year
Curse a fair February."
Of the sun Virgil is quoted:

"Above the rest, the sun who never lies,
Foretells the change of weather in the skies."

Doctor Humphreys gives us several beautiful lines from Shakespeare's sky colors, including the red sky in the morning and the red sky in the evening.

But Doctor Humphreys well remarks that in many ways the most interesting of all these proverbs that have to do with red sunrise and red sunset is one which, according to St. Matthew, Christ used in answer to the Pharisee and Sadducees when they asked that He would show them a sign from heaven. "He answered and said unto them, when it is evening, ye say, it will be fair weather, for the sky is red; and in the morning, it will be foul weather today, for the sky is red and lowering. Oh, ye hypocrites, ye can discern the face of the sky, but can ye not discern the signs of the times?"

This red-sky proverb was so ancient that Christ knew that every one who heard Him was familiar with the saying.

Doctor Humphreys accounts in a measure for the red-sky sign by physical explanation of the phenomena.

Green W. Bell, of Bells Landing, who, in addition to being the best managed bee raiser in the upper end of the county, is also a studious observer of weather conditions from year

to year. Mr. Bell has kept a daily record of the weather for the past twenty years and is an authority on the weather of the past, present and future—judging by the following information or semi-prognostication which he gave us while in town yesterday.

Mr. Bell agrees with the quoted observation above "that the sun controls the weather." He asserts that the direction of the winds for the succeeding three months accurately follows the direction of the wind at the exact moment the sun crosses the line at the different seasonal changes. For instance when the sun crossed the line on September 23d, 1919, at 9:26 p. m., the wind was a little southerly of west which meant that the prevailing winds during the three months ending December 21st will be from the southwest and in consequence we will have very little winter up to December 21st at least.

Mr. Bell's bees made him a little more than 600 pounds of honey during the season just closed, the bees averaging but about ten pounds to the colony, while last year the colony yield approximated 100 pounds each.

As all bee-keepers report the same condition this year, we asked Mr. Bell what the trouble was among the bees and whether he thought the world-wide unrest and strike fever he meant the busy little fellows' daily life. He said "No, sir; the bees were as busy as ever, but they had no work or very little work this season and were forced to spend their time in idleness. When pressed for his reasons for this observation he again charged it to the wind, but beyond that was unable to go. He said that when the wind is from the northeast or northwest the flowers do not secrete honey and as the winds during April, May and to June 21st were generally from the northeast and from June to September 23d were from the northwest the flowers failed to secrete honey and the busy bee was therefore unable to gather what he couldn't find.

Mr. Bell says this is one of the many, but it always works out that way as he has kept close watch on it for the past ten or fifteen years.

WANTED

This concern needs an experienced electrician and a young man as a helper.

C. & S. Electrical Supply Co.

"Courtesy and Service"

112 South Third Street

Next to Penn Public Service Office

Why wear yourself out washing clothes on a rub board?

Why buy a washer with unsightly and dangerous moving parts exposed?

Why not wash the Blue-Bird way? Save your back, save your hands, protect your children.

The Blue-Bird has a swinging wringer; you will like this feature.

Let us do a wash for you in your own home. If the Blue-Bird doesn't wash your clothes as clean as you can wash them on a rub board—if it doesn't do more than you expect of a washer, we don't want you to buy it. You be the judge. We make no charge for the washing. Just call H. & C. 58x and arrange a date.

A new style of goggles specially designed to prevent the automobile driver becoming dazzled has the hand side of each lens colored. When blinding headlights come along the driver has only to turn his head slightly to the left and his eyes are at once protected from the dazzling glare while he still has the clear part of the goggles to keep an eye on the road.

Over a million dollars is made every year from apricot stones in California. Nearly 7,000 tons of stones are obtained from the fruit, and from these the chemist extracts two oils, one known as bitter oil of almonds, the other a new substitute for olive oil. A ton of stones produces material worth about \$200.

Billiards, originally said not to be called the "green-table sport," since the early billiard tables were covered with blue cloth and not green.

Instances of extraordinary longevity are not always above suspicion, but Thera Park, who was buried in Westport, Va., was said to have lived 112 years. That is the longest life on record.

NOTICE

The Ladies' Association of the Lutheran Church will hold a free sale at Thera Park on Saturday, October 12th, from 10:00 a. m. to 4:00 p. m.

STYLE SHOW WEEK

1919 Fall Fashion Show Closes Saturday Evening

This Has Been One of the Most Wonderful Expositions of What's Newest and Most Desirable in Winter Apparel.

The sections of the store where we were showing the latest designs from Madam Fashion's workshop has been the center of interest for carefully dressed women from miles around.

And no wonder! When you stop to consider that the return of our buyers from the markets marked the coming of the unusual in modes that are the latest, modes that Fifth Avenue considers just the thing, Fashion's last worn designs, materials and workmanship.

The Style Show closes Saturday evening. You have tomorrow and a short time tomorrow evening to come and view these beautiful things. Come while the exposition is at its height. Come and view the show in all its splendor.
